

COMMERCIAL EVER READY NUMEROLOGY

(BEST APPLICATION OF NUMBERS TO
FORECASTING MARKET PRICES
&
WINNERS IN LOTTERIES & HORSE-RACING, ETC.)

By

PT. GANGA PRASAD, *Jyotishacharya,*
(Dr. of Jyotish Literature, Author of Mahalaxmi Panchang,
Perpetual Market Forecast & Business Astrology, Six
years' Astronomical Bhartiya Ephemeris for 1955-60
A. .D, 64 years' Ephemeris (Hindi),
World Time Clock (Hindi), etc.

SPECIAL FEATURES:—

- (i) Useful to businessmen, Astrologers & public in general.
- (ii) Even a layman, not conversant with knowledge of Astrology, will understand this book easily as the book deals primarily in Numbers 1 to 9 and their compound numbers.
- (iii) All rules have been illustrated by concrete examples which prove that the rules are infallible.
- (iv) Besides aforesaid Numbers the book deals with Friends Number, application of Numbers to—Lotteries, Horse-Racing, American Cotton Futures, Dhruwanks, Forecasting Market prices, to gain wealth all of a sudden, etc.--illustrated with a good number of Tables and examples.

PERPETUAL MARKET FORECAST
&
BUSINESS ASTROLOGY

Price Rs. 10/8 or Sh. 21 (Postage Extra).

BY

PT. GANGA PRASAD, JYOTISHACHARYA

*(The world-renowned Commercial Astrologer of this century
and*

author of a large number of well-known books)

This secret and private book consists of the most hidden principles of Market Forecasting. It is the outcome of author's 30 years practical study, observations & consultations of many important books of Western and Eastern Astrology. The renowned and learned author has prepared this book after his complete research and life-long experience. This work may be accepted as one of the best research on this subject. Even a layman can understand this book. The book is *useful for ever* and is *not confined to any particular year*.

Some outstanding features:—

(i) Preliminary ideas for Market Forecast. (ii) Aspects—Their effects on market prices in details, formulating 110 *infallible and important astrological rules* for Market Forecasting. (iii) Theory of Forecasting rise and fall in market prices. (iv) Eclipses—Their effects on Market prices in details. (v) Practical application of the 110 astrological rules in forecasting prices with practical illustrations. (vi) Outstanding astrological yogas and aspects helping success in business. (vii) Monthly Market Forecast of prices of Gold, Silver and Cotton from 1955 to 1960 A. D.

PREFACE

This humble work consists of my life-long study and research of Commercial Numerology. I have incorporated in it the best I know about the subject. I do not claim that this work is perfect as a man can never claim to be perfect. He is always liable to err. God alone is perfect and mistake-proof. But I have the satisfaction of my conscience that I have done my best in the preparation of this book.

I have dealt with nearly all the rules governing "Commercial Numerology". The book will be easily understood even by a layman, not conversant with the knowledge of Astrology, as the book deals primarily in numbers 1 to 9 and their compound numbers. Moreover, all the elementary principles of Astrology are explained in a simple way in this book. This book alone will teach all the principles of Commercial Numerology—in its varied form and various branches—to a layman who knows numbers 1 to 9.

The readers will find this book as a wonderful work of its kind with all the Master-keys and Secret points ever presented to world, as an aid to successful business, commerce, speculation, market forecasting, Lotteries, Horse-Racing, etc., with examples and Tables in full details. Thus, this is an unique work of its kind and will solve the aforesaid problems, besides the problem of rise & fall in market prices.

Now it is universally accepted that such a book is greatly needed. Various attempts have been made to cope with the requirements and readers will soon judge for themselves whether this book meets their requirements. Several books on the popular gambling of "Horse-racing", Lotteries, etc., have been written on the basis of Commercial Numerology. But I suppose this is the first attempt dealing with application of Commercial Numerology in the field of Market Forecasting. The businessmen will calculate the probable future trend of prices in Rupees and Annas by the simple application of numbers 1 to 9 and their Compound numbers. I have illustrated this principle in details by concrete examples and secret Tables. I have also given instructions to those who are able to invest money.

The system of Racing Numerology placed by me in this book claims the following advantages:—

- (i) It does not require any knowledge of Astrology though the same is purely scientific.
- (ii) It is based on simple figures 1 to 9.
- (iii) It is workable in any part of the world as it has no connection with Time, Colour or Sound.
- (iv) It always gives reliable and trustworthy proofs for the winners.

The Commercial Numerology is still in its infancy. We hope, in future, by research and experience it will be as perfect as any other Science. The reader should always remember that a great success is not attained over-night but one should toil diligently and intelligently.

On my part, I have spared no labour and time in its preparation. It is my most humble and earnest prayer to Almighty that this humble work of mine at Commercial Numerology may prove correct.

I do not boast that the rules given in this book are infallible, but I hope these rules will help a novice to attain success in life without any loss.

Ganga Prasad,
Doctor of Jyotish Literature,
Shree Mahalaxmi Publications,
Morar (M. B.)

(a) First system--List of Dhruwanks, with rules of Forecasting Daily Rise and Fall in prices of Commodities & Shares	
(b) Second System--List of Dhruwanks with rules of Forecasting Daily Rise and Fall in Prices of Commodities & Shares-with tables to find out Rise or Fall in prices in Rupees & Annas	
Chapter IX—Application of Numbers to gain wealth all of a sudden	...113-116
Bhartiya Astronomical & Astrological Publications.	...117-124

CHAPTER I

Preliminary Ideas in Astrology

The preliminary ideas of Astrology are essential for proper understanding of Numerology.

Names of the Planets and their Symbols

With the help of Planets, Stars and Numbers astrologers and great sages have been predicting fortunes from times immemorial.

Ancient astronomers discovered the following seven planets.

Name of the Planet	Symbol
SUN	☉
MOON	☾
MERCURY	☿
VENUS	♀
MARS	♂
JUPITER	♃
SATURN	♄

Besides the above planets, there are two shadowy or fictitious planets—Rahu and Ketu. The former is also known as “The Moon’s North Node” and the latter is known as “The Moon’s South Node”. Besides, the western astronomers have lately discovered three more planets—Uranus or Herschel, Neptune and Pluto.

Signs of the Zodiac and their Symbols

The whole zodiac is divided in to 12 Houses of 30

degrees each. Each house is known by a different name.

Name	English Name	Indian Name	Symbol
Aries	The Ram	Mesh	♈
Taurus	The Bull	Vrikh	♉
Gemini	The Twins	Mithin	♊
Cancer	The Crab	Karak	♋
Leo	The Lion	Shing	♌
Virgo	The Virgin	Kanya	♍
Libra	The Balance	Tula	♎
Scorpio	The Scorpion	Vrishchak	♏
Sagittarius	The Archer	Dhan	♐
Capricorn	The Goat	Makar	♑
Aquarius	The Washerman or Waterman	Kumbh	♒
Pisces	The Fishes	Meen	♓

Rulers of Zodiacal Signs, their Detriments, their Exaltation and their Fall

Ruler or lord:—Every zodiacal sign is ruled by a particular planet. It is called its ruler. The planet, in its own house, is powerful.

Detriment:—When the planet occupies the zodiacal sign opposite the sign of which it is the ruler, that sign is called its Detriment, eg., Mercury is the ruler of Gemini. The zodiacal sign, opposite to Gemini, is Sagittarius. Therefore, Sagittarius is the Detriment sign of Mercury. The planet, in its Detriment sign, is not powerful.

Exaltation:—There are certain zodiacal signs in which planets are very strong and powerful. When the planet is in such signs, it is said to be “Exalted” or “Ooch” e.g., Moon in Taurus.

Fall or Debilitation:—The zodiacal sign, opposite to the sign of the Exaltation of the planet, is called its sign of Debilitation or Fall.

The planet, in its sign of Fall, is very weak, e.g., Moon in Scorpio.

Zodiacal Signs.	Their Rulers.	Their Detriment.	Their Exaltation.	Their Fall.
Aries	Mars	Libra	Sun & Pluto.	Saturn
Taurus	Venus	Scorpio	Moon	Herschel
Gemini	Mercury	Sagittarius	Rahu	Ketu
Cancer	Moon	Capricorn	Jupiter & Neptune.	Mars
Leo	Sun	Aquarius	Mercury
Virgo	Mercury	Pisces	Mercury	Venus
Libra	Venus	Aries	Saturn	Sun & Pluto.
Scorpio	Mars & Pluto.	Taurus	Herschel	Moon
Sagittarius.	Jupiter	Gemini	Ketu	Rahu
Capricorn	Saturn	Cancer	Mars	Jupiter & Neptune.
Aquarius	Saturn & Herschel	Leo	Mercury
Pisces	Jupiter & Neptune.	Virgo	Venus	Mercury

Some authorities limit the Exaltation & fall to specific degrees :

Planet	☉	♃	♅	♁	♄	♆
Exaltation	♈ 19°	♉ 3°	♊ 15°	♋ 27°	♌ 28°	♍ 15°
Fall	♓ 19°	♏ 3°	♎ 30°	♍ 27°	♌ 28°	♋ 15°
Planet	♁	♂	♆	♃	♅	♄
Exaltation	♈ 21°	♉ 3°	♊ 3°	♋ 3°	♌ 15°	♍ 19°
Fall	♓ 21°	♏ 3°	♎ 3°	♍ 3°	♌ 15°	♋ 19°

Sun Transitting Various Zodiacal Signs.

Numerology is designed for all people in general and not one particular individual. Hence we have considered here only the Sun, transitting various zodiacal signs and have left consideration of other planets.

The Sun lives for one month in each zodiacal sign every year as under :—

In Aries	:—From 23rd March	to 23rd April.
In Taurus	:—From 23rd April	to 23rd May.
In Gemini	:—From 23rd May	to 23rd June.
In Cancer	:—From 23rd June	to 23rd July.
In Leo	:—From 23rd July	to 23rd August.
In Virgo	:—From 23rd August	to 23rd September.
In Libra	:—From 23rd September	to 23rd October.
In Scorpio	:—From 23rd October	to 23rd November.
In Sagittarius:	—From 23rd November	to 23rd December.
In Capricorn:	—From 23rd December	to 23rd January.
In Aquarius:	—From 23rd January	to 23rd February.
In Pisces	:—From 23rd February	to 23rd March.

General Observation.

It is not our intention to drag the reader into the details and intricacies of astrology. Hence we have mentioned here the names of planets, the zodiacal signs, their rulers, their Detriments, their Exaltation and their Fall only. We have also given the periods of the year during which the Sun transits various zodiacal signs. The other planets transit the various zodiacal signs at different times according to their periods of revolution. Hence we have

not dealt with the transition of other planets in different zodiacal signs.

It is not possible to treat of the lucky number of the vast humanity living in this world because every human being is born under influences of different planets. Sun is exalted in Aries from 23rd March to 23rd April. Therefore the Sun is extremely powerful during this period. Again Sun is the ruler of Leo. Hence Sun is powerful from 23rd July to 23rd August every year, when Sun transits in Leo. Hence all persons, born during aforesaid periods, will easily understand that the number ruled by the Sun is beneficial for them. *Similarly when the Sun transits Taurus, the House of Venus, from 23rd April to 23rd May, all persons, born during this period, will easily understand that the number ruled by Venus is beneficial for them.* The same principle applies to other zodiacal signs.

In order to obtain the correct result as to which number is really the lucky number, governing each person, we should collect the following data of the individual concerned:—(i) Exact Time of Birth in Indian Standard Time, (ii) English Date, (iii) English Month, (iv) A. D. Year & (v) Place of birth. From these data a birth horoscope should be cast. From a close scrutiny of the horoscope we should find out the harmonious aspects formed at the time of birth and then determine the lucky number of each individual.

CHAPTER II.

Numbers from 1 to 9.

(a) General.

Zero (0) is not the number. It denotes "Infinity." The other numbers are : 1, 2, 3, 4, 5, 6, 7, 8, 9. There are seven days during a week. Each day is ruled by a particular planet, which is governed by a particular number as given below :—

Day	Ruling Planet	Number ruled by them.
Sunday	The Sun	1 and 4.
Monday	The Moon	2 and 7.
Tuesday	Mars	9
Wednesday	Mercury	5
Thursday	Jupiter	3
Friday	Venus	6
Saturday	Saturn	8

From the above table you find that, besides the Sun and Moon, each of the other five planets rules one number only. The Sun and the Moon have two numbers—of these one is operative in the bright half of the month *i.e.*, when the Moon waxes and the other is operative in the dark half of the month *i.e.*, when the Moon is waning. Numbers 1 & 7 operate in the dark half of the month, while numbers 2 & 4 operate in the bright half of the month.

Planetary Hours.

Although each day of a week is ruled by a particular planet, yet each hour of the day is ruled by a different

planet. The order is as follows :— (1) Saturn (2) Jupiter (3) Mars (4) Sun (5) Venus (6) Mercury (7) Moon. When the cycle of 7 hours is finished, another cycle of seven hours runs. After the Moon's rulership of the hours is finished, Saturn becomes the ruler of the hour. The above order should never be altered. Further ruling planet of a particular day is the ruler of first hour (from Sun-rise) of that day. The other hours of the day are ruled by the succeeding planets in order given above.

We count the first hour from the time, the Sun rises. The time of Sun-rise is published in all daily papers, Ephemeris and Panchang. Suppose the time of Sun-rise, published in Hindustan Times, is 7-0 a. m. *I. S. T.* on Monday. The ruling planet of Monday is Moon. Hence Moon will be the ruler of first hour, from Sun-rise, of Monday. Thus Moon rules from 7-0 a. m. to 8-0 a. m. Therefore Moon is the dominating ruler of the first hour from Sun-rise. The other hours of Monday will, accordingly, be ruled by the succeeding planets in order given above. Thus the 2nd hour will be ruled by Saturn. Therefore from 8-0 a. m. to 9-0 a. m. Saturn and Moon are the joint rulers, one being the ruler of hour, while other being the ruler of the day. During the third hour from Sun-rise *i.e.*, from 9-0 a. m. to 10-0 a. m., Jupiter along with Moon rules the hour and so on.

For ready reference we give below a table from which you can easily ascertain the ruling planet of the hour of a particular day concerned :—

Table of Planetary Hours.

DAYS — HRS.	SUN.	MON.	TUES.	WEDN.	THURS.	FRI.	SATUR.
1	Sun.	Moon	Mars	Merc.	Jupi.	Venus	Sat.
2	Venus	Sat.	Sun.	Moon	Mars	Merc.	Jupi.
3	Merc.	Jupi.	Venus	Sat.	Sun	Moon	Mars
4	Moon	Mars	Merc.	Jupi.	Venus	Sat.	Sun
5	Sat.	Sun	Moon	Mars	Merc.	Jupi.	Venus
6	Jupi.	Venus	Sat.	Sun	Moon	Mars	Merc.
7	Mars	Merc.	Jupi.	Venus	Sat.	Sun	Moon
8	Sun	Moon	Mars	Merc.	Jupi.	Venus	Sat.
9	Venus	Sat.	Sun	Moon	Mars	Merc.	Jupi.
10	Merc.	Jupi.	Venus	Sat.	Sun	Moon	Mars
11	Moon	Mars	Merc.	Jupi.	Venus	Sat.	Sun
12	Sat.	Sun	Moon	Mars	Merc.	Jupi.	Venus
13	Jupi.	Venus	Sat.	Sun	Moon	Mars	Merc.
14	Mars	Merc.	Jupi.	Venus	Sat.	Sun	Moon
15	Sun	Moon	Mars	Merc.	Jupi.	Venus	Sat.
16	Venus	Sat.	Sun	Moon	Mars	Merc.	Jupi.
17	Merc.	Jupi.	Venus	Sat.	Sun	Moon	Mars
18	Moon	Mars	Merc.	Jupi.	Venus	Sat.	Sun
19	Sat.	Sun	Moon	Mars	Merc.	Jupi.	Venus
20	Jupi.	Venus	Sat.	Sun	Moon	Mars	Merc.
21	Mars	Merc.	Jupi.	Venus	Sat.	Sun	Moon
22	Sun	Moon	Mars	Merc.	Jupi.	Venus	Sat.
23	Venus	Sat.	Sun	Moon	Mars	Merc.	Jupi.
24	Merc.	Jupi.	Venus	Sat.	Sun	Moon	Mars

Method of finding out Planetary Hour from the above Table :—

1. When the given time, for which the ruler of the hour is required, falls between *Sunrise and Noon*, subtract the time of sunrise from the given time. This will show the number of hours elapsed since sunrise. Enter table

opposite this number in the left-hand column, and under the day of the week will be found the ruler of the hour.

2. When the given time, for which the ruler of the hour is required, falls any where *between Noon and Mid-Night* or *Mid-Night and next sunrise*, subtract the time of Sun-rise, from twelve hours and add to this the number of hours elapsed since noon upto the given time. This shows the number of hours elapsed since sun rise. Enter table at this number and proceed further as directed in paragraph 1.

Note—If the result, obtained from either of the above two rules shows hours and minutes enter at the hour to which the minutes belong. For example, in 16 hours 42 minutes, enter at the 17th hour. Always calculate the day as commencing from sunrise. Thus, 4th July, 4-0 a. m. should be counted from sunrise of the 3rd July.

Planetary Sub-Periods of Hour:—

Every hour is divided into 15 units of 4 minutes each. During each unit of 4 minutes the sub-rulership passes on to a different planet strictly in the order mentioned aforesaid.

For ready reference we give below a table from which you can easily find out the planetary sub-periods of an hour concerned.

Table of Planetary Sub-Periods of an Hour

HOUR— NO. OF MINUTES PERIOD IN EACH PERIOD	SAT.	JUPI.	MARS	SUN	VENUS	MERC.	MOON
1	Sat.	Jupi.	Mars	Sun	Venus	Merc.	Moon
2	Jupi.	Mars	Sun	Venus	Merc.	Moon	Sat.
3	Mars	Sun	Venus	Merc.	Moon	Sat.	Jupi.
4	Sun	Venus	Merc.	Moon	Sat.	Jupi.	Mars
5	Venus	Merc.	Moon	Sat.	Jupi.	Mars	Sun
6	Merc.	Moon	Sat.	Jupi.	Mars	Sun	Venus
7	Moon	Sat.	Jupi.	Mars	Sun	Venus	Merc.
8	Sat.	Jupi.	Mars	Sun	Venus	Merc.	Moon
9	Jupi.	Mars	Sun	Venus	Merc.	Moon	Sat.
10	Mars	Sun	Venus	Merc.	Moon	Sat.	Jupi.
11	Sun	Venus	Merc.	Moon	Sat.	Jupi.	Mars
12	Venus	Merc.	Moon	Sat.	Jupi.	Mars	Sun
13	Merc.	Moon	Sat.	Jupi.	Mars	Sun	Venus
14	Moon	Sat.	Jupi.	Mars	Sun	Venus	Merc.
15	Sat.	Jupi.	Mars	Sun	Venus	Merc.	Moon

How to find out Planetary Period from above table:—

After ascertaining the planetary hour, note the number of minutes which has elapsed of that hour, then enter the table of periods in the left hand column, marked "minutes" in each period and under the hour of the planet ruling at the time, and opposite the period within which the minutes fall, will be found the Planet ruling the Period at that time.

(b) Compound Numbers reduced to a Single Digit.

Compound numbers begin from 10 and onwards. They are known as compound numbers because they are made up of more than one digit. We shall discuss below the method of reducing compound number to a single digit or number.

Number	10	—	1+0	=	1
Number	11	—	1+1	=	2
Number	12	—	1+2	=	3
Number	13	—	1+3	=	4
Number	14	—	1+4	=	5
Number	15	—	1+5	=	6
Number	16	—	1+6	=	7
Number	17	—	1+7	=	8
Number	18	—	1+8	=	9
Number	19	—	1+9	=	10

From the above you will observe that the addition of the digits of the number 19 is equal to $1+9=10$ which is also a compound number. Besides, when the digits of the number 10 are added, the resultant is equal to $1+0=1$. Thus the number 19 is really equivalent to number 1.

Similarly we take below some other compound numbers and illustrate the principle of reducing compound numbers to a single digit or number.

Number	36=	3+6=9
Number	39=	3+9=12=1+2=3
Number	59=	5+9=14=1+4=5
Number	98=	9+8=17=1+7=8
Number	598=	5+9+8=22=2+2=4
Number	6789=	6+7+8+9=30=3+0=3
Number	15889=	1+5+8+8+9=31=3+1=4

Rules.

From the above examples, we deduce the following rules for reducing the compound number to a single digit or number.

(a) Add up all the digits of a given number. For example the two digits of 36 (3 & 6) are added up in the above illustration and the single digit arrived at by addition of 3+6 is 9 which is equivalent to compound number 36.

(b) In case the addition of all the digits of a given number is a single digit, then that single digit is equivalent to the compound number e. g., 36=3+6=9. Here 9 is equivalent to compound number 36.

(c) In case the addition of all the digits of a given number is equivalent to a compound number, then we should again add up the digits of that new compound number to reduce the new compound number to a single digit or number. The last single digit or number will be equivalent to the original number. Let us refer back to number

6789 mentioned above. Number 6789=6+7+8+9=30. The number 30 is again a compound number. The new compound number, when reduced to a single digit, is equal to 3+0=3, single digit or Number. Thus 3 is equivalent to original compound number, 6789.

(c) Numbers discussed individually.

Number 1.

The number 1 and Sunday are ruled by the Sun. Same compound numbers, when reduced to a single digit as per rules described in previous chapter, are also equivalent to number 1. Therefore persons, born either on 1st or on some dates, consisting of those compound numbers which, when reduced to a single digit or number, are equivalent to number 1, are ruled by number 1.

The Sun transits the zodiacal sign Aries, sign of exaltation of Sun, between 23rd March and 23rd April and his own house Leo, between 23rd July and 23rd August of each year. A person, born during the above two periods of any year, will have number 1 as his probable lucky number. But if the person is born on 1st, 10th, 19th or 28th during the above two periods, then the number 1 is certainly his lucky number. In case the person is born on that hour of 1st, 10th, 19th or 28th during the aforesaid periods, in which the ruler of hour is Sun, then the lucky number 1 will have more astonishing effect. Such a person should do all his important work on 1st, 10th, 19th or 28th of any month and during the aforesaid two periods in particular but more particularly in that hour of aforesaid dates when the ruler of hour is Sun.

Further Sunday is ruled by the Sun . If Sunday happens to fall on 1st, 10th, 19th or 28th of any month, but particularly during the aforesaid two periods, such a person should do all important work on these dates.

The number 4 is also ruled by the Sun. Therefore 1st, 10th, 19th or 28th dates of the month should prove lucky for such a person, specially if these dates fall on Sunday, but more specially during the aforesaid periods.

But the hour of Sun is generally unfortunate, particularly in asking favours of influential persons or for lending or borrowing money, or to commence any new work, or to enter a house for the first time, or to undertake a journey. Things lost or stolen in this hour are seldom recovered. Letters received during this time relate to affairs of credit and position and troubles connected therewith. Illness during this hour will be generally acute.

The Sun rules *Golden* or *Orange* colour. Hence if the persons , having number 1 as their lucky number, were to put on a ring with a diamond of aforesaid colour mounted on it, it should prove nice and lucky for them.

Note—The number 1 is operative in the dark half of the month *i.e.*, when the Moon is waning .

Number 2.

The number 2 and Monday are ruled by the Moon. The compound numbers 11, 20, and 29, when reduced to a single digit or number, are also equivalent to 2. Hence a person, born on 2nd, 11th, 20th or 29th of any month, is ruled by number 2.

The Sun transits the zodiacal sign Cancer, the house of the Moon, between 23rd June and 23rd July. A person, born during the above period of any year, will have number 2 as his probable lucky number. But if the person is born on 2nd, 11th, 20th or 29th during the above period then the number 2 is certainly his lucky number.

Further Monday is ruled by the Moon. If Monday happens to fall on 2nd, 11th, 20th or 29th of any month, but particularly during the aforesaid period, then such a person should do all important work on these dates.

In case the person is born on that hour of aforesaid dates, falling on Monday, during the above period, in which the ruler of hour is Moon, then the lucky number 2 will have most astonishing effect on the life of such a person. Such a person should do all his important work on 2nd, 11th, 20th, or 29th, falling on Monday during the aforesaid period, but more particularly in that hour of aforesaid dates when the ruler of hour is Moon.

The number 7 is also ruled by the Moon. Therefore 7th, 16th, 25th dates of the month should prove lucky for such a person, specially if these dates fall on Monday and more specially during the aforesaid period.

The hour of the Moon is good for dealing with all public concerns, advertising, changes of all sorts, travels, etc. But it is not good in respect of matters dealing with females, or to take any important steps in respect of plans and arrangements. Things lost may be recovered if the facts are advertised publicly. Letters received relate to changes and are often of the nature of evasion. Illness during

this hour relates to complaints of stomach and digestion and also of chest affection.

The Moon rules "*White Colour.*" Hence such a person should put on white clothes as far as possible and avoid black dresses. A ring, with white pearl mounted on it, should prove lucky for him.

Note—The number 2 is operative in the bright half of the month *i. e.*, when the Moon waxes.

Number 3.

Jupiter rules number 3 and week day, Thursday. The compound numbers 12, 21 and 30, when reduced to a single digit or number, are also equivalent to 3. Hence persons, born on 3rd, 12th, 21st and 30th of any month, are ruled by number 3.

The Jupiter rules the zodiacal signs—Sagittarius and Pisces. The Sun transits the zodiacal sign, Sagittarius between 23rd November and 23rd December, and the zodiacal sign, Pisces between 23rd February and 23rd March of each year respectively. Persons, born during the above periods of any year, will have number 3 as their probable lucky number. But if the persons are born on 3rd, 12th, 21st and 30th dates during the above periods, then number 3 is certainly their lucky number.

Further Thursday is ruled by Jupiter. In case Thursday happens to fall on 3rd, 12th, 21st and 30th of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates.

In case the person is born on that hour of aforesaid dates, falling on Thursday during the above periods, in

which the ruler of hour is Jupiter then the lucky number 3 of that person will have most astonishing effects on him. Such a person should plan and execute all his important work on 3rd, 12th, 21st or 30th, falling on Thursday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Jupiter.

The hour of Jupiter is *good* for obtaining favours from superiors and persons in authority and position; for travels and new enterprises; for marriage; for obtaining legal advice; for lending and borrowing money. It is *lucky* or fortunate for all pecuniary transactions and commerce in general; for advancing one's interest in any direction. However, it is unfortunate for dealing in cattles. Stolen things will be recovered if the fact is advertised publicly with some reward. Letters received during this hour will have reference to money, trade, etc., and always prove advantageous to the person receiving them. Information received at this time is generally reliable. Illness during this hour shows a rapid recovery.

The colour ruled by Jupiter is *yellow*. Hence such a person should put on yellow clothes in preference to others as far as possible. A ring with yellow "Topaz" mounted on it should prove lucky for him.

Number 4.

Sun rules number 4 and week day, Sunday. The compound numbers 13, 22, and 31, when reduced to a single digit or number, are also equivalent to 4. Hence persons, born on 4th, 13th, 22nd and 31st of any month, are ruled by number 4.

Sun rules the zodiacal sign—Leo, while the sign of exaltation of Sun is Aries. The Sun transits the zodiacal sign Aries between 23rd March and 23rd April and the zodiacal sign, Leo between 23rd July and 23rd August of each year respectively. Persons, born during the above periods of any year, will have number 4 as their probable lucky number. But if the persons are born on 4th, 13th, 22nd and 31st during the aforesaid periods, then number 4 is certainly their lucky number.

Further Sunday is ruled by Sun. In case Sunday happens to fall on 4th, 13th, 22nd and 31st of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates.

In case the person is born on that hour of aforesaid dates, falling on Sunday during the above periods, in which the ruler of hour is Sun then the lucky number 4 of that person will have most astonishing effect on him. Such a person should plan or execute all his important work on 4th, 13th, 22nd or 31st, falling on Sunday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Sun.

It is my personal experience that persons having their ruling number 4 are not so lucky as persons having their ruling number 1 which is also ruled by Sun as described in previous pages. If persons, having number 4 as their lucky number, plan and execute their important work on 1st, 10th, 19th and 28th, falling on Sunday during the aforesaid periods, instead of on 4th, 13th, 22nd and

31st (on the same week day and during the same periods) they will meet with greater success.

Note—The number 4 is operative in the bright half of the month *i. e.*, when the Moon waxes.

Number 5.

Mercury rules number 5 and weekday, Wednesday. The compound numbers 14 & 23, when reduced to a single digit or number, are also equivalent to 5. Hence persons born on 5th, 14th, and 23rd of any month are ruled by number 5.

Mercury rules the zodiacal signs—Gemini and Virgo. The Sun transits the zodiacal sign, Gemini between 23rd May and 23rd June and the zodiacal sign, Virgo between 23rd August and 23rd September every year respectively. Persons, born during the above periods of any year, will have number 5 as their probable lucky number. But if the persons are born on 5th, 14th, and 23rd dates during the above periods, then number 5 is certainly their lucky number.

Further Wednesday is ruled by Mercury. In case Wednesday happens to fall on 5th, 14th and 23rd of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates.

In case the person is born on that hour of aforesaid dates, falling on Wednesday during the above periods, in which the ruler of hour is Mercury then the lucky number 5 of that person will have most astonishing effects on him. Such a person should plan and execute all his important

work on 5th, 14th or 23rd, falling on Wednesday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Mercury.

The hour of Mercury is good for buying or selling, in writing letters, to commence any study and to deal in matters connected with children or young people. Things lost generally prove to have been stolen but may be recovered. Letters received relate to business and trade, educational matters, writings, papers and matters affecting young persons. Illness will generally be of nervous nature and will fluctuate.

Mercury rules *green* colour. A ring, with a stone of green or pale green colour mounted on it, should prove lucky for them.

Number 6.

Venus rules number 6 and week day, Friday. The compound numbers 15, 24 when reduced to a single digit or number, are also equivalent to 6. Hence persons born on 6th, 15th and 24th of any month are ruled by number 6.

Venus rules the zodiacal signs—Taurus and Libra. The Sun transits the zodiacal sign, Taurus between 23rd April and 23rd May and the zodiacal sign Libra between 23rd September and 23rd October every year respectively. Persons, born during the above periods of any year, will have number 6 as their probable lucky number. But if the persons are born on 6th, 15th and 24th dates during the above periods, then number 6 is certainly their lucky number.

Further Friday is ruled by Venus. In case Friday happens to fall on 6th, 15th and 24th of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates specially.

In case the person is born on that hour of aforesaid dates, falling on Friday during the above periods, in which the ruler of hour is Venus then the lucky number 6 of that person will have most astonishing effects on him. Such a person should plan and execute all his important work on 6th, 15th or 24th, falling on Friday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Venus.

The hour of Venus is a good hour for domestic affairs, courting women, marriage, commencing a journey, to visit friends, to undertake any business or sport, to take medicine, to occupy a new house, to purchase furniture, jewellery and for the pursuit of things of pleasure and fashion. Things lost may be easily recovered. Letters received will generally relate to pleasure and gain. Illness during this hour shows a rapid recovery.

Venus rules *white* colour. Hence such persons should put on white clothes as far as possible and avoid using black dresses. A ring, with white pearl mounted on it, should prove lucky for them.

Number 7.

Moon rules number 7 and week day, Monday. The numbers 2 and 7 are interchangeable numbers. The compound numbers 16 and 25, when reduced to a single digit

or number, are also equivalent to 7. Hence persons born on 7th, 16th and 25th of any month are ruled by number 7.

Moon rules the zodiacal sign—Cancer. The Sun transits Cancer between 23rd June and 23rd July every year. Persons, born during the above period of any year, will have number 7 as their probable lucky number. But if the persons are born on 7th, 16th and 25th dates during the above period, then number 7 is certainly their lucky number.

Further Monday is ruled by Moon. In case Monday happens to fall on 7th, 16th and 25th of any month, but particularly during the aforesaid period, then such persons should plan and execute their important work specially on these dates.

In case the person is born on that hour of aforesaid dates, falling on Monday during the above period, in which the ruler of hour is Moon then the lucky number 7 of that person will have most astonishing effects on him. Such a person should plan and execute all his important work on 7th, 16th or 25th dates, falling on Monday during the aforesaid periods, but more particularly in that hour of dates when the ruler of hour is Moon.

The number 2 is also ruled by the Moon. Hence number 2 is lucky for persons born on 2nd, 11th, 20th or 29th dates, falling on Monday during the aforesaid period, but specially in that hour of aforesaid dates when the ruler of hour is Moon.

Note—The number 7 is operative in the dark half of the month *i. e.*, When the Moon is waning.

Number 8.

Saturn rules number 8 and week day, Saturday. The compound numbers 17 and 26, when reduced to a single digit or number, are also equivalent to 8. Hence persons born on 8th, 17th and 26th of any month are ruled by number 8.

Saturn rules the zodiacal signs—Capricorn and Aquarius. The Sun transits the zodiacal sign, Capricorn between 23rd December and 23rd January and the zodiacal sign, Aquarius between 23rd January and 23rd February every year respectively. Persons, born during the aforesaid periods of any year, will have number 8 as their probable lucky number. But if the persons are born on 8th, 17th and 26th dates, during the above periods, then number 8 is certainly their lucky number.

Further Saturday is ruled by Saturn. In case Saturday happens to fall on 8th, 17th and 26th of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates specially.

In case the person is born on that hour of aforesaid dates, falling on Saturday during the above periods, in which the ruler of hour is Saturn then the lucky number 8 of that person will have most astonishing effects on him.

Such a person should plan and execute all his important work on 8th, 17th or 26th, falling on Saturday, during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Saturn.

Like the number 4, the number 8 is not a happy number. Moreover, the numbers 4 and 8 are interchangeable.

Persons born on 8th, 17th and 26th of any month should avoid living in a house which bears number 4 or 8 or any compound number which when reduced to a single digit or number is equal to 4 or 8. Such persons are, however, advised to reside in a house bearing number 3 or 6.

The hour of Saturn is an evil hour. It is bad for almost all affairs. It is bad for travels, voyages, starting new enterprises, employment of servants, taking medicine, borrowing and lending money. However, it is good for taking leases of houses or lands, for purchasing any kind of grain for cultivation and for matters connected with the produce of the soil such as crops and minerals; for dealing with the aged and infirm, for contracts reaching over many years. Things lost during this hour are seldom regained and may be found only after long delay. Letters received in this hour relate to death, sickness, misfortune and delays. Illness during this hour will indicate a long period of suffering and will only recover after much care and expense.

Saturn rules *deep blue or Indigo* colour. Hence persons, ruled by number 8, should put on a ring, with stone of deep blue colour mounted on it and it should prove good for them.

Number 9.

Mars rules number 9 and weekday Tuesday. The compound numbers 18 & 27, when reduced to a single digit or number, are also equivalent to number 9. Hence persons born on 9th, 18th and 27th of any month are ruled by number 9.

Mars rules the zodiacal signs—Aries and Scorpio. The Sun transits the zodiacal sign Aries between 23rd March and 23rd April and the zodiacal sign Scorpio between 23rd October and 23rd November every year respectively. Persons, born during the above periods of any year, will have number 9 as their probable lucky number. But if the persons are born on 9th, 18th and 27th dates during the above periods, then number 9 is certainly their lucky number.

Further Tuesday is ruled by Mars. In case Tuesday happens to fall on 9th, 18th and 27th of any month, but particularly during the aforesaid periods, then such persons should plan and execute their important work on these dates specially.

In case the person is born on that hour of aforesaid dates, falling on Tuesday during the above periods, in which the ruler of hour is Mars then the lucky number 9 of that person will have most astonishing effects on him. Such a person should plan and execute all his important work on 9th, 18th or 27th, falling on Tuesday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Mars.

The hour of Mars is bad for undertaking any enterprise or travel. It is an evil hour and should be avoided for all purposes. Hurry and impulsiveness in all actions, quarrels and disputes should be avoided. Things lost are usually found immediately or not at all. Information received or impressions coming to the brain during this hour are unreliable. Letters received during this hour

oferetnlate to disputes, fraud, accidents, etc. Illness during this hour will be usually violent and acute.

Mars rules *Red* colour. Hence such persons should put on a ring, with a red stone mounted on it, for success in life.

CHAPTER III

The Compound Numbers and the Name or Fate Numbers.

(a) General.

Numbers 1 to 9 and zero (0) are all elementary numbers. The compound numbers, e.g., 20, 45, 401, 4597, 12358, etc., are formed by the combination of elementary numbers.

The compound numbers 10, 14, 17, 19, 20, 21, 23, 24, 25, 27 are good and lucky numbers in general. But the compound numbers 11, 13, 15, 16, 18, 22, 26, 28, 29 are unlucky numbers in general.

We shall now discuss how you should find out your Name or Fate Number which may prove important in your life. Every letter of English Alphabet is assigned a different value. These values have already been fixed by the ancient sages and Religionists for their divine purposes.

The following values were first adopted by the Egyptians :—

Table 1.

A ... 1	H ... 8	O ... 8	V ... 6
B ... 2	I ... 1	P ... 8	W ... 6
C ... 3	J ... 3	Q ... 3	X ... 7
D ... 4	K ... 2	R ... 4	Y ... 1
E ... 5	L ... 3	S ... 6	Z ... 7
F ... 8	M ... 4	T ... 4	
G ... 3	N ... 5	U ... 6	

The Hebrews have, however, made the following changes in the above values :—

C ... 2 O ... 7 R ... 2 S ... 3

Modern Astrologers are, however, of the opinion that both the values should be adopted and they read as follows :—

Table 2.

A ... 1	N ... 5
B ... 2	O ... 8 & 7
C ... 3 & 2	P ... 8
D ... 4	Q ... 3
E ... 5	R ... 4 & 2
F ... 8	S ... 6 & 3
G ... 3	T ... 4
H ... 8	U ... 6
I ... 1	V ... 6
J ... 3	W ... 6
K ... 2	X ... 7
L ... 3	Y ... 1
M ... 4	Z ... 7

Note—But in practice we prefer to adopt original Egyptian values given above. The Numbers 1, 3, 5, 7 and 9 are good and numbers 2, 4, 6 & 8 are ordinary numbers.

From the original Egyptian values of Alphabets you will observe that:—

- (a) Number 1 is equal to Letters A, I and Y.
- (b) Number 2 is equal to Letters B and K.
- (c) Number 3 is equal to Letters C, G, J, L and Q.
- (d) Number 4 is equal to Letters D, M, R and T.
- (e) Number 5 is equal to Letters E and N.
- (f) Number 6 is equal to Letters S, U, V & W.
- (g) Number 7 is equal to Letters X and Z.
- (h) Number 8 is equal to Letters F, H, O and P.

(b) **How to find out your Fate or Name Number:—**

We should adopt the following procedure to find out your fate or name number. This name number will exert influence on your life.

(i) Write down your *full name* i. e., your name, father's name (in case the same is affixed or prefixed to your name as is done in the names of Sindhis, Maharashtrais, etc.) and Surname.

(ii) Allot the alphabetical values to each alphabet of name as per table given above.

(iii) Add up these values and reduce the compound number so obtained to a single digit or number. This number will be your fate or name number.

Example 1.—Jai Ram Das Daulat Ram Mirchandani

Jai Ram Das	Daulat Ram	Mirchandani
J ... 3	D ... 4	M ... 4
A ... 1	A ... 1	I ... 1
I ... 1	U ... 6	R ... 4
R ... 4	L ... 3	C ... 3
A ... 1	A ... 1	H ... 8
M ... 4	T ... 4	A ... 1
D ... 4	R ... 4	N ... 5
A ... 1	A ... 1	D ... 4
S ... 6	M ... 4	A ... 1
		N ... 5
		I ... 1
25	28	37

$$25=2+5=7, \quad 28=2+8=10=1+0=1 \& 37=3+7=10=1+0=1$$

7+1+1=9, Ruling, Fate or Name Number.

Thus number 9 is the ruling or fate number of Jai Ram Das Daulat Ram Mirchandani. It means that the number 9 should influence Jai Ram Das Daulat Ram Mirchandani. Number 9 is ruled by Mars. If this man is born on 9th, 18th & 27th of any month but specially if he is born on the above dates falling on Tuesday, which is ruled by Mars and more specially between the periods i.e., 23rd March and 23rd April; and 23rd October and 23rd November of any year when the Sun transits the Zodiacal signs—Aries and Scorpio then it is 100% certain that the number 9 will rule him. If such a person reviews the record of his past life, he would observe that most probably the outstanding events in his life must have taken place

on 9th, 18th and 27th of the month. Such a person should do all important work on 9th, 18th and 27th of any month but more specially if these dates fall on Tuesday and during the aforesaid two periods of the year.

Example: 2. Kishori Lal

K I S H O R I L A L

$$2 \ 1 \ 6 \ 8 \ 8 \ 4 \ 1 \ 3 \ 1 \ 3 = 37 = 3 + 7 = 10 = 1 + 0 = 1$$

Thus number 1 is the Ruling or Fate number of Kishori Lal. Number 1 should influence Kishori Lal. Number 1 is ruled by Sun. If this man is born on 1st, 10th, 19th or 28th of any month but specially if these dates fall on Sunday, which is ruled by Sun and more specially between the periods i. e., 23rd March and 23rd April; and 23rd July and 23rd August of any year when the Sun transits the Zodiacal signs—Aries and Leo, then it is cent percent certain that the number 1 will rule him. If such a person reviews the record of his past life, he would observe that the outstanding events in his life must have most probably taken place on 1st, 10th, 19th or 28th of the month. Such a person should do all his important work on 1st, 10th, 19th or 28th of any month but more specially if these dates fall on Sunday and during the aforesaid two periods of the year.

Rule—We deduce the following rule from the above examples:—

“When the *Fate Number* and *Birth date* is the same, you should consider that this number governs your life favourably even though the number is not a fortunate one.”

(c) Table of Months and Dates Fate Numbers
Table 3:

Month fate numbers	Month Name	Dates	Dates fate numbers	Dates	Dates fate numbers	Dates	Dates fate numbers
3	January do	1st to 9th 17th to 18th	6 5	10th to 15th 19th to 27th	5 4	16th 28th to 31st	2 3
4	February do	1st to 7th 17th to 25th	6 4	8th to 15th 26th to 29th	5 3	16th	2 ...
2	March do	1st to 5th 16th	6 2	6th to 14th 17th to 23rd	5 4	15th 24th to 31st	4 3
8	April do	1st to 3rd 16th	6 2	4th to 12th 17th to 21st	5 4	13th to 15th 22nd to 30th	4 3
9	May do	1st to 10th 17th to 19th	5 4	11th to 15th 20th to 28th	4 3	16th 29th to 31st	1 2

1	June do	1st to 8th 17th	5 4	9th to 15th 18th to 26th	5 3	16th 27th to 30th	1 2
4	July do	1st to 6th 17th to 24th	5 3	7th to 15th 25th to 31st	4 2	16th	1 ...
8	August do	1st to 4th 16th	5 1	5th to 13th 17th to 22nd	4 3	14th & 15th 23rd to 31st	3 2
7	September do	1st to 2nd 16th	5 1	3rd to 11th 17th to 20th	4 3	12th to 15th 21st to 30th	3 2
7	October do	1st to 9th 17th & 18th	4 3	10th to 15th 19th to 27th	3 2	16th 28th to 31st	7 1
3	November do	1st to 7th 17th to 25th	4 2	8th to 15th 26th to 30th	3 1	16th	9 ...
5	December do	1st to 5th 16th	4 9	6th to 14th 17th to 23rd	3 2	15th 24th to 31st	2 1

(d) Friends Number

Table 4.

In the following table *F* denotes "Friend", *O* represents "Ordinary" and *E* indicates "Enemy".

No.	1	2	3	4	5	6	7	8	9
F	2,3,5	1,3,5	1,2,5	1,6,8	1,2,3	4,7,8	4,6,8	$\frac{4,6}{7,9}$	$\frac{4,6}{7,8}$
O	1,4,9	2,6,7	3,6,7	$\frac{3,5}{4,7}$	$\frac{5,7}{8,9}$	$\frac{3,5}{6,9}$	2,7,9	3,5,8	$\frac{3,5}{9,3}$
E	6,7,8	4,8,9	4,8,9	2,9	4,6	1,2	1,5,3	1,2	1,2

Example 3.

(a) Kishori Lal wants to know whether he will be successful in service or not.

We should find out the number of word "Service" as explained in Example 1 & 2 in previous pages. "Service" is equal to number 3.

As explained in Example 2, Kishori Lal's fate number is 1.

Now we consult table No. 4 and find that number 1 is friend to Number 3. Hence Kishori Lal may be successful in service.

(b) Now Kishori Lal wants to know whether he will be successful in business or not.

As explained in Example (3 a) we find that the word "business" is equivalent to number 1.

On consulting table No. 4 we find that number 1 is ordinary to number 1. Hence Kishori Lal will gain ordinarily in business.

(c) Again Kishori Lal wants to know whether he will be successful in contractorship or not.

As explained above we find that the word "contractorship" is equivalent to number 4.

Referring to table No. 4 we find that number 1 is ordinary to number 4. Hence Kishori Lal will gain ordinarily in contractorship.

(d) Kishori Lal wants to marry with Shakuntala and therefore he is eager to know whether he will be successful or not in marriage.

As explained above we find that the word "Shakuntala" is equivalent to number 1 and word "Marriage" is equivalent to number 5.

Referring to table No. 4 we find that the number 1 is ordinary to number 1 and friend to number 5. Hence there is no harm if Kishori Lal marries Shakuntala. The love will be ordinary, but friendly.

(e) Kishori Lal appeared in B. A. examination, held from 26th March 1950. He wants to know whether he will be successful or not in the examination.

As explained above we find that the words "B. A. Examination" are equivalent to number 9, while as per our table number 3, 26th March is equivalent to number 5 and $1950=1+9+5+0=15=6$. Thus 26th March 1950 is equal to number $6+5=11=1+1=2$.

Referring to table number 4 we find that number 1 is ordinary to number 9, while number 1 is friend to number 2. So Kishori Lal will pass with ordinary numbers.

(f) Kishori Lal wants to know whether he will be successful as Doctor or as a Road-Engineer.

As explained in previous pages we find that the word "Doctor" is equivalent to number 4, while the word "Road-Engineer" is equivalent to number 5.

On consulting table number 4 we find that number 1 is ordinary to number 4 while the number 1 is friend to number 5. So Kishori Lal will be more successful as a "Road-Engineer" than as a Doctor.

(g) Kishori Lal wants to know whether he will get profit in farmership or not.

As explained previously we find that the word "Farmership" is equivalent to number 4.

Referring to table No. 4, you will observe that the number 1 is ordinary to number 4. Hence Kishori Lal will gain ordinarily in farmership.

(h) Kishori Lal bought a Durby Lottery Ticket, opening on 25th November, 1950. The question is whether he would have gained something or not?

Now, Durby Lottery=Number 1

Year 1950 = ,, 6

November = ,, 3

25th of November = ,, 2

Adding all these numbers we get compound number 12, which when reduced to a single digit is equivalent to number 3.

Referring to table number 4, you will observe that the number 1 is friend to number 3. Hence Kishori Lal must have got a good prize.

(i) M/s Chimman Lal Tejmal, a firm, wants to know which business, either of Gold, Silver or Cotton, will be profitable to them.

Now we find the numbers of words as below as explained previously:—

Chimman Lal Tejmal=Number 8

Gold = ,, 9

Silver = ,, 7

Cotton = ,, 5

Referring to table number 4, our result is as follows:—

Gold—Number 8 is friend to number 9. Hence the firm will get good profits in gold business.

Silver—Number 8 is friend to number 7. Hence the firm expects to get good profits in silver business.

Cotton—Number 8 is ordinary to number 5. Hence the firm expects to get ordinary profits in Cotton business.

(j) Govind Prashad has a disease of Dropsy. Will he get through this disease or not ?

As explained previously we find that the word "Govind Prashad" is equivalent to number 5, while the word "Dropsy" is equivalent to number 4.

Referring to table number 4, we observe that the number 5 is enemy to number 4. Hence it is difficult for Govind Prashad to get through this disease.

(k) Kishori Lal wants to send entry for Cross Word in Illustrated weekly of India, appearing on 1st

August 1954. The question is whether he will gain some prize or not ?

Now we find the numbers of words as below as explained in previous pages:—

Cross Word	=	Number 4
Illustrated weekly of India	=	„ 8
August	=	„ 8
1st of August	=	„ 5
Year 1954	=	„ 1

Adding all these numbers we get compound number 26, which when reduced to a single digit or number is equivalent to number 8.

Referring to table number 4, we observe that number 1 is enemy to number 8. Hence it is difficult for Kishori Lal to get prize in this cross word.

(l) Kishori Lal has learnt that there is some hidden wealth in his house at Gwalior. He wants to know if he will be able to get the hidden wealth or not.

Now we find the numbers of words as below as explained in previous pages.

Hidden wealth	=	Number 9
Gwalior	=	„ 8

Adding these numbers we get compound number 17, which when reduced to a single digit or number is equivalent to number 8.

Referring to table number 4, we observe that number 1 is enemy to number 8. Hence it is difficult for Kishori Lal to get hidden wealth.

(m) Shyam Lal Pandaviya wants to fight minister-ship of Madhya Bharat Legislative Assembly, to be held in year 1951. The question is whether he will be successful or not ?

Shyam Lal Pandaviya's fate number will be 1, while the numbers of other words are given below:—

Ministership	=	Number 8
Madhya Bharat	=	„ 3
Legislative	=	„ 2
Assembly	=	„ 1
Year 1951	=	„ 7

Adding all these numbers we get compound number 21, which when reduced to a single digit or number is equivalent to number 3.

Referring to table number 4, we observe that number 1 is friend to number 3. Hence Shyam Lal Pandaviya is sure to become a Minister.

(n) Both Shri Mishri Lal Gangwal and Shri Takhat Mal Jain want to fight for the portfolio of Chief Minister in Madhya Bharat Legislative Assembly to be held in 1952. The question is who will be successful ?

Mishri Lal Gangwal's fate number is 8 and Takhat Mal Jain's fate number is 2. The numbers of other words are given below:—

Chief	=	Number 7
Minister	=	„ 3
Madhya Bharat	=	„ 3
Legislative	=	„ 2
Assembly	=	„ 1
Year 1952	=	„ 8

Adding all these numbers we get compound number: 24, which when reduced to a single digit or number is equivalent to number 6.

Now referring to table number 4, we observe that number 8 (Mishri Lal Gangwal's fate number) is friend to number 6. Hence he is sure to become Chief Minister. Again, Number 2 (Takhat Mal Jain's fate number) is ordinary to number 6. Hence he is not certain to become Chief Minister.

(o) Both Shri Gautam Sharma and Shri Narain Rao Bhashkar Khare want to stand for the membership of Lok Sabha, to be held in 1952, The question is who will be successful ?

Shri Gautam Sharma's fate number is 7 and Shri Narain Rao Bhashkar Khare's fate number is 1. The numbers of other words are given below:

Membership = Number 2
 Lok Sabha = „ 4
 Year 1952 = „ 8

Adding all these numbers we get compound number 14, which when reduced to a single digit or number is equivalent to number 5.

Now referring to table number 4 we observe that number 7 (Gautam Sharma's fate number) is enemy to number 5. Hence he is sure to be defeated. But number 1 (Narain Rao Bhashkar's fate number) is friend to number 5 Hence he is sure to be elected.

(p) Shri Kishori Lal wants to construct a building at Lashkar. The question is whether he will be able to construct or not?

Kishori Lal's fate number is 1. The numbers of other words are given below:—

Building = Number 7
 Lashkar = „ 7

Adding all these numbers we get compound number 14, which when reduced to a single digit or number is equivalent to number 5.

Now referring to table number 4, you will find that number 1 is friend to number 5. Hence Kishori Lal will construct a building at Lashkar.

CHAPTER IV

Planets and their Relations with one another

and

Their Interchangeable Numbers & their Periodicity

The sun, the Moon, Jupiter and Mars are friends in the heavenly cabinet. Their numbers are 1, 4, 2, 7, 3 and 9. Out of these numbers, the number 4 is an unfortunate number. The remaining five numbers 1, 2, 7, 3 and 9 are interchangeable numbers because they have harmonious vibrations with one another.

Mercury, Venus and Saturn are friends in the heavenly cabinet. Their numbers are 5, 6 and 8. Number 8 is an unfortunate number. Hence it can be safely interchanged with numbers 5 and 6. Suppose the fate number of a person is 8. If such a person is born when the Sun passes through Zodiacal signs—Gemini and Virgo, ruled by Mercury—and Taurus and Libra ruled by Venus, he can safely adopt number 5 or 6 to give favourable results.

The Sun and Mars are dead enemies of Saturn. Their numbers are 1, 4, 9 and 8. These numbers do not vibrate favourably with one another, and therefore should not be interchanged with 1, 4 and 9 at any cost.

Venus is the enemy of the Sun, the Moon, Jupiter and Mars. Their numbers are 6 and 1, 4, 2, 7, 3 and 9. The number 6, which is ruled by Venus, should not be interchanged with number 1, 4, 2, 7, 3 and 9 at any cost and under any case.

Periodicity of each planet is the number ruled by that planet. You should first see which important num-

ber has played an important part, whether for good or evil, in your past life. Suppose number 5 has played an important part for good in your past life. Then some important good work will be repeated in your life time, every 5th year. But if some important evil work has been done, then some important evil work will be repeated in your life time, every 5th year. Similarly number 7 has played an important part for good or for evil, then every 7th year some important good or evil work will be repeated in your life time.

Some Sound Instructions Regarding Numbers

(1) You should first find out the name or fate number which rules you and also whether the name accords with your birth date and birth day. If it does not agree, make either a slight change in the spelling of your name or adopt a new name altogether which should vibrate harmoniously with the birth date and birth day.

(2) Keep such a name of your business establishment, e.g., shop or office etc., as may vibrate harmoniously with your favourable fate or name number. The opening ceremony of such business establishment should be performed on the favourable date in accordance with your name number.

(3) You should do your business in that city whose number should accord with your name number.

(4) If you observe that your name number repeats itself unfavourably on these dates in your life, then change that name number as suggested above.

(5) Suppose your name number is 4. If number 4 repeats itself in important events in your life unfavourably, make a change in your name so that your name number be 1 (as number 4 harmoniously vibrates with number 1). Do not live in a house or carry on your business in premises bearing number 4. But you should always endeavour to live in a house or carry on your business in premises bearing number 1 or 10, or 19 or 28.

(6) Suppose your name number is 8. If number 8 repeats itself in important events in your life unfavourably, introduce a change in your name so that your name number be 6 (as number 8 harmoniously vibrates with number 6). Do not live in a house or carry on your business in premises bearing number 8. But you should always endeavour to live in a house or carry on your business in premises bearing number 6, or 15 or 24.

(7) Always plan and execute your important work on dates of the month corresponding to your name number.

CHAPTER V

Application of Numbers to Lotteries

(Lotteries Numerology)

(a) General

A good number of persons sink their fortune in Lotteries. But very few persons are lucky to win it. Sometimes very poor persons also get good prizes in lottery. But if you cast horoscopes of such poor persons, you will observe in their horoscopes certain outstanding Astrological Yogas which made them rich cheaply. Hence when a man seeks your advice whether he will be successful in Lottery or not, you should, first of all, cast his birth horoscope according to Sayana System. Thereafter you should read the horoscope minutely according to rules laid down in some standard Astrological book. These astrological rules, if applied honestly to read the birth horoscope, may predict clearly what is in store for a man in days to come in his life. If by reading the birth horoscope of the person in question, you observe that there are some outstanding Astrological yogas, in his horoscope, which may make him rich cheaply and specially if there are good harmonious aspects either between the Moon or the Sun and Uranus or Herschel, you should expect that he may win the first prize in lottery when he passes through the favourable Mahadasha during his life.

Outstanding Astrological Yogas helping Success in Lottery

For ready reference of readers we give below some outstanding Astrological yogas, occurring in Horoscopes,

which may make the native rich cheaply. Such yogas certainly help the native to get money cheaply either by Lottery or some other means.

(i) Moon in Ascendant at birth in Zodiacal signs—Aries, Taurus, Cancer and Capricorn.

(ii) Jupiter in Zodiacal signs—Aries, Cancer, Leo, Scorpio, Sagittarius—occupying the 1st, 4th, 5th or 9th House of native's Horoscope.

(iii) Venus in Zodiacal signs—Taurus, Scorpio, Pisces—occupying the 8th, 9th or 11th House.

(iv) Saturn in Zodiacal signs—Libra, Capricorn or Aquarius—occupying 4th, 7th, or 11th House.

(v) Moon, Mercury, Jupiter, Venus in Zodiacal signs—Taurus, Cancer, Scorpio, Capricorn, Aquarius—occurring in 5th or 8th House in Native's Horoscope.

(vi) Jupiter in Cancer in the fourth House, Saturn in Libra in the Seventh House, Venus in Scorpio in Eighth House.

(vii) Jupiter in Sagittarius in 9th House, Mars in Capricorn in 10th house.

(viii) Moon in Leo in Ascendant at birth, Saturn in Aquarius. If Sun, Jupiter and Mars occupy the House of profit in native's horoscope, these planets will further strengthen the aforesaid yoga. Special benefit will accrue to the native in this yoga, if Sun, Jupiter or Mars form either a Trine or Square aspect with Moon, Venus or Mercury.

(ix) Moon in Capricorn in Ascendant at birth, Jupiter in Aries or Cancer in the fourth House, Saturn or Mercury in House of wealth.

(x) Mercury and Venus in Aquarius, occupying

the Eighth House. In this yoga conjunction of Moon and Mars is necessary.

Aspects indicating Success in Lottery.

(a) Jupiter and Moon in Cancer, forming Sextile 60° aspects in Second or Eleventh House. In this aspect the native will get first prize amounting to Rs. 6,00,000/-

(b) Jupiter and Moon in Cancer or Taurus, forming Trine 120° aspect in 4th or 9th House. This aspect will indicate that the native will get first prize.

(c) Sun and Moon in Cancer or Leo, forming Sextile 60° aspect in 4th or 10th House will give the native first prize.

(d) Sun and Herschel in Aries; or moon and Herschel in Taurus, forming Trine aspect in 11th House will give the native first prize.

(e) Saturn and Venus in Libra, forming Sextile or Trine aspect in Third, Sixth or Eleventh House, will yield the native Second prize.

(f) Mars in Capricorn forming Sextile or Trine aspect with Moon or Jupiter in 3rd or 10th house will yield the native Second prize.

(g) Jupiter and Moon in Taurus or Cancer, forming Semi-sextile aspect in 2nd or 8th house will yield the native Third prize.

(h) Sun and Moon in Aries or Leo; and Moon and Herschel in Taurus or Cancer, forming Semi-sextile 30° aspect in 5th, 9th or 11th house, indicate that the native will get the third prize.

(i) Jupiter and Moon in Cancer or Taurus; Saturn and Mars in Libra or Capricorn, forming Semi-sextile 30° aspect in Second, Third or Tenth house will yield the native third prize.

How to find out your Lucky year & dates by Planets

(a) The ruling planet of Zodiacal sign appearing in the house is the ruler of fate. Hence the planets ruling the 9th house will determine your lucky year.

Thus, if Leo (ruled by Sun) in 9th house, then 22nd year will be lucky year

if Cancer	24th
if Aries or Scorpio	28th
if Gemini of Virgo	32nd
if Sagittarius or Pisces,, Jupiter	16th
if Taurus or Libra	25th
if Capricorn or Saturn	36th
Aquarius	

(b) Further the planet appearing in 9th house will also determine your lucky year.

Thus if Rahu (Ascending Node) in 9th house, then	42nd year will be lucky year
if Ketu (Descending Node)	
if Herschel (Uranus)	36th
if Neptune	24th
if Pluto	16th and 44th

From the above you can find out your lucky year.

As regards lucky month and date, first find out your Name Number and then see Chapter II, Captioned "Number from 1 to 9", and you will be able to find out

the date and month which may coincide with your Name Number. Suppose your Name Number is 5, then 5th, 14th or 23rd dates, falling on wednesday, during the periods (i) 23rd May and 23rd June, when Sun transits the Zodiacal sign, Gemini and between (ii) 23rd August and 23rd September, when Sun transits the Zodiacal sign Virgo, will be most lucky dates.

How to find out your Lucky (Profitable) Business by Planets

(a) The ruling planet of Zodiacal sign appearing in 9th house is the ruler of Fate. Hence the planets ruling the 9th house will determine your lucky business, you should enter in.

Thus, if Leo (ruled by Sun) in 9th house, then business of Gold will be lucky.

if Cancer (Moon)	Silver
if Aries or Scorpio (Mars)	Iron, Woolen clothes & Castor-seeds will be lucky.
if Gemini or Virgo (Mercury)	Jute, Bardana, Gwar, Peas & Arhar will be lucky.
if Sagittarius or (Jupiter)	Ghee, Oil, Turmaric, Pearls, & Yellow-colour-goods and Perfumery goods will be lucky.
Pisces	

Thus if Taurus or Libra (ruled by Venus) in 9th house, then business of Sugar, Cotton & Cotton clothes will be lucky.

“ “ Capricorn or Aquarius (“ Saturn) “ “ then business of Deferred Shares, Silk, Oil, Black Pepper & Sarson will be lucky.

(b) Further the planet appearing in 9th house will also determine your lucky business.

Thus, if Rahu (Ascending Node) in 9th house, then the business of Animals like Horse and Elephant, blankets & black wool will be lucky.

“ “ Ketu (Descending Node) —Do—

“ “ Herschel (Uranus) in 9th house then the business of Factories & Machines will be lucky.

“ “ Neptune in 9th house then the business of General & Merchandise & Electrical goods will be lucky.

“ “ Pluto “ “ of Medicines, Weapons & Mines will be lucky.

Data for Casting Accurate Horoscope:—

For casting accurate Birth Horoscope, you require the following data:—

(i) Exact time of birth according to Greenwich or Standard time of your country, (ii) English date or Hindi tithi, month and the year of birth (iii) Place of birth, (iv) and Country born in.

Besides, attempting to become rich by winning lottery, a correct reading of an accurate horoscope will suggest you the correct name, number and week day, you may safely adopt to bring success in your business and when you should plan and execute your important works for success.

In the previous chapter I have discussed numbers in general in its application to human beings and not in particular in its application to any particular individual.

I may strongly advise my readers not to sink much money in lotteries by banking on numbers enumerated by me in previous chapters because the rules discussed by me are general in application to the vast humanity and not to particular individual. In case you want to sink a good proportion of your capital in lotteries, you are advised to seek my advice individually by writing to me all the details required for casting horoscopes. Such details, as required for horoscopes, are given above.

(b) Rules for Application of Numbers to Lotteries.

(1) First of all find out the date of the month, you are born. Suppose you are born on 5th or 14th or 23rd of any month. Then you are ruled by number 5 which will be your Fate or Name Number.

(2) Now find out the week day of the month you are born. If the week day is Wednesday which is ruled by number 5, then it is certain that number 5 will play important part in your life. Even if you are born on the week day Friday i.e., day of Venus or the week day Saturday i.e., day of Saturn, still number 5 will play an important role in your life in as much as Mercury, Venus and Saturn are friends in the Heavenly cabinet.

(3) Again, if the birth dates 5th, 14th or 23rd and the week day of the birth, Wednesday happen to fall during the periods of the year when the Sun transits the Zodiacal sign, Gemini between 23rd May and 23rd June and the zodiacal sign, Virgo between 23rd August and 23rd September every year, then number 5 will definitely play an important part in your life.

(4) Further if you are born on that hour of aforesaid dates, falling on Wednesday during the above two periods as mentioned in Rule 3 above, in which the ruler of hour is Mercury, then your lucky number 5 will have most astonishing effects on you. You should plan and execute all your important work on 5th, 14th or 23rd, falling on Wednesday during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Mercury.

(5) However, it may be noted that it is not possible that all the above four factors should coincide. But even if two or three of these four rules coincide, then you must bank on number 5 as your lucky or Fate number.

(6) The same principles apply to other numbers, and then find out the number which influences success

in your life and bank on the number so found out accordingly.

(7) Besides the above rules, write your full name and then put down the alphabetical values of your name and find out the Name or Fate number as explained in Chapter III. If this name number agrees with the number of the birth date, week day and the periods of the year as explained in Rule number 3, then you can safely bank on this name number. But if this name number does not agree as above, then make such a minor change—either in the spelling of your name or altogether in your name—that the name number of the altered name coincides with your birth date, week day and the periods of the year as mentioned in Rule 3. Similar rule will apply to other numbers.

(8) After determining your Name or Fate number you should select the Lottery number whose first digit synchronises with your Name number. Further you should try to see that the whole lottery ticket number, when reduced to a single digit or number, also coincides with your Name number. Suppose your Name number is 5. You should buy a lottery ticket whose first digit synchronises with your Name number 5 and also the whole lottery ticket number, when reduced to a single digit, coincides with your name number 5. Hence you should buy a lottery ticket, bearing number like 20165, because the first digit is 5 and when the whole lottery ticket number 20165 is reduced to a single digit or the single number, the final number is also 5 which coincides with the lucky number. Further you should buy this lottery ticket on

Wednesday which is ruled by number 5. Besides all this if this lottery ticket is purchased during the periods mentioned in rule 3 and on Wednesday, the result will be most encouraging.

(9) If you purchase a lottery ticket in which the first two digits of the lottery number should win the first prize, please follow the rules detailed below:—

(a) Buy that lottery ticket of which unit's digit agrees with your name number.

(b) Buy that lottery ticket of which the unit's digit as well as ten's digit, when reduced to a single digit coincides with your name number.

(c) Buy that lottery ticket of which the unit's digit, ten's digit and also all the digits of lottery ticket, taken together and reduced to a single digit, coincide with your Name number. Suppose your name number is 5. According to above rules you should buy a lottery ticket bearing number like 1895. Here the unit's digit is 5 which coincides with your name number 5. Again the ten's digit 95, added together and reduced to a single digit, is equal to 5 which itself is your Name number. Further when all the digits of the lottery ticket number are added up and reduced to a single digit, they give the final number 5, which again agrees with your Name number. Hence this lottery ticket should prove fortunate for those who are ruled by number 5.

(d) You should buy such a lottery ticket on Wednesday which rules number 5.

(e) Besides all this, if this lottery ticket is purchased on 5th, 14th or 23rd of the months, falling on Wed-

nesday, during the periods as mentioned in rule 3, the result will be most encouraging.

(10) You should observe the same rules as explained in paragraph 9 in case you want to purchase a lottery ticket number in which the first three numbers should score the first prize. Suppose your name number is 5. You should, therefore, buy a lottery ticket, bearing number like 27095. Here the unit's digit is 5 which coincides with your name number 5. Again the first three digits 095, added together and reduced to a single digit, are equal to 5 which itself is your Name or Lucky number. Further when all the digits of the lottery ticket number are added up and reduced to a single digit, they give the final number 5, like $2+7+0+9+5=23=2+3=5$, which coincides with your Name number. Hence this lottery ticket should prove lucky for those who are ruled by number 5. Moreover you should buy such a lottery ticket on Wednesday which rules number 5. Besides all this, if this lottery ticket is purchased on 5th, 14th or 23rd of the months, falling on Wednesday, during the periods as mentioned in Rule 3, the result will be most astonishing.

(11) You should observe the same rules as explained in paragraphs 9 and 10 in case you want to purchase a lottery ticket number in which the first four digits or the first five digits or the first six digits and so on should score the first prize. If you hope to win the first prize you should follow these rules strictly.

(12) Besides the above rules you can find out the lottery ticket number, which may secure the first prize, referring to Friends number—Table No. 4.

CHAPTER VI.

Application of Numbers to Racing (Racing Numerology)

(a) General

By racing, I mean horse-racing. Horse-racing, as we know it to day, is a modern institution, imported into this country by the sporting Britishers. Races are considered to be a delightful sport for the Kings and the Rich, considering the amount of money you require to indulge in it. But horse-racing is the king of sports too as every Tom, Dick and Harry make it a point to attend the races in preference to any other sport in progress at the same time.

Evils of Racing & Author's Opinion.

Races have not only ruined the Rich, but many a middle class and poor people have become penniless within a very short time also. The hard-earned money is swept away in a moment, and suicides are also being committed in a number of cases. On the other hand, when money is got from Races, it is invariably utilised in different undesirable ways. These are the main reasons why going to races is generally considered to be inadvisable.

Majority of people are inclined to go to Races with the hope of getting some money. It is not at all wrong to earn money by any honest means, as money is the chief medium which brings about the desired goal in most cases.

Speculation is generally considered to be a bad thing. However it is no doubt bad if the same is done

beyond one's limit. Moreover, if you look around minutely, you will observe that practically each and every business in this world is being carried on, on some form of speculation. Hence it is not bad at all if you go to Races with the hope of getting money by *backing on some sound foundation, and under one's own limits.*

However, in view of the Evils of Racing as described above, it will not be wise to induce any body to fall into this line. But the Scientific principles and reliability in finding out the winners of Races by Racing Numerology have prompted the author to incorporate in this books the principles of "Racing Numerology" also for the benefit of readers. Attempts have been made to explain the theory clearly with actual examples in proof. However, I may warn the readers that the theory must be thoroughly mastered with the practical examples before investing any money.

The system of "Racing Numerology" is based upon the Occult Values of Numbers adopted by sages almost since the world was first habitable to reveal destiny. The Science of Numbers has been treated in different ways by different authors and I have also dealt with this Science in details in previous pages of this book. Here I shall discuss this Science in so far as it applies to Horse-Racing.

In India a child is named by the Occult Letter of the Zodiacal sign which is ruling at the time of its birth. This puts the life of the child in harmony with the laws of Nature. It is generally seen that the particular names of the Kings, ships, etc., have different periodical rulings, resulting in success or failure in

course of time. Race-Horses of the best class have also failed to do anything even in competition with the lower class. This is due to bad occult influence which falls on them due to inharmonious names given by their owners. As soon as their names are changed, they win at the very start. This demonstrates the fact that there was something peculiarly obstructive in the name. This obstruction of "The bad Occult influence" was removed by the mere change of the name.

Thus it is clear from the above discussion that the name of an animate or an inanimate object is materially affected by the subtle influence of different planets.

Similarly favourable winning chances for horses, by their names alone, can be found out by the application of the Scientific principles of numbers, discussed in details in this book.

(b) How to find out the Probable winner in Horse-Race.

In chapter III of this book I have already given numerical values of alphabets and have also mentioned there in the full method of finding out your fate or name number. I have also told you of the numbers ruled by the planets in Chapter II. In the same Chapter I have also discussed the numbers ruling each week day. In this very Chapter I have given Table of Planetary Hours and Table of Planetary Periods. In Chapter III I have already given numerical values of months & dates under Table No. 3, captioned as "Months and Dates Fate Numbers". All these informations will be necessary to find out the probable winner in horse-race.

First Method of Finding Probable Winners in Horse-Race.
Theory of winning Numbers

You may find out the probable winner in horse-race by carefully following the steps given below:—

(i) Note the correct and actual *Name of the Race* as given in the Official Race Card. First of all find out the numerical value of the Full Name of Race as given in the Official Race Card by applying the alphabetical values given in Chapter III in the manner discussed there in.

(ii) Note the correct *Names of Horses* as per the Official Race Card and find out the numerical value of name of each of the horses as discussed in Step No. (i).

(iii) Note the correct Numbers of Horses as per the Official Race Card. Put the name value of each of the horses, as found out by Step No. II above, against its fixed number as per the Official Race Card.

(iv) Note the date of the running of the race. You may find out the numerical value of date by referring to table of "Months and Dates Fate Numbers" given in Chapter III in the manner discussed there in.

(v) Note the exact time of Sun-rise. You may find out the time of Sun-rise from any good **Panchang** or Ephemeris. By referring to our "World Time Clock", you may find out the time of sun-rise at any place in the world.

(vi) Note the ruler of the day and also his number. I have already discussed this matter in Chapter No. II of this book.

(vii) Note the planets ruling different hours from the exact time of sun rise. From this find out the planet

ruling the hour in which race is run. Please consult "Table of Planetary Hours" given in Chapter II of this book.

(viii) Make a list of sub-periods of four minutes along with their rulers from the time of sun-rise. From this find out the planet ruling the sub-period in which race is run. Please consult "Table of Planetary Sub-Periods of an hour" in Chapter II of this book.

(ix) Now add the following:—

(a) Numerical value of Name of Race—explained in Step (i).

(b) Numerical value of date of running the race—explained in Step (iv).

(c) Number of ruler of day—explained in Step (vi).

(d) Number of planet ruling the hour in which race is run—explained in Step (vii).

(e) Number of planet ruling the sub-period in which race is run—explained in Step (viii).

(x) After adding all the above numbers given in Step (ix), reduce them to a single digit.

(xi) Now consult "Table of Friends Number" given in Chapter III. Now see if the resultant single digit (arrived at by step 'x') is friend to numerical value of name of any horse. If there is any such horse, that horse will represent the probable winning horse. Moreover if the resultant single digit (arrived at by step 'x') is also friend to official number of such horse as per race card, then chances of this horse winning in race are the brightest.

I illustrate the above steps by means of Example.

Example:—On Saturday, the 4th November, 54 the race was run at 6-20 P. M., I. S. T. at Bombay with the name of Gatwick Plate. There were 20 good Arabs on the card. For simplicity sake we give below the official names and numbers of 5 horses only out of the 20.

	Names of Horses	Official Number
1.	Baktavar	8
2.	Squire	6
3.	Hishan	7
4.	Hamiar	17
5.	Forfeit	4

Solution:— (i) Numerical value of the full name of Race-plate "Gatwick" is 2, calculated in the manner explained in Chapter III.

(ii) Now let us find out the numerical value of name of each of the horses, calculated in the manner explained in chapter III. For brevity sake we give below the numerical value of name of the above five horses only.

Name of Horses	Numerical value of name of Horses
Baktavar	3
Squire	7
Hishan	2
Hamiar	1
Forfeit	2

(iii) Note the correct numbers of Horses as per the Official Race Card against numerical value of name of horses as given in Step II.

(iv) Now find out the numerical value of date of the running of the Race by referring to table of "Months and Dates Fate Numbers" given in Chapter III. This comes to 8.

(v) The time of Sun-rise at Bombay on Saturday, the 4th November 54 is 7-0 A.M. as per our "World Time Clock."

(vi) The ruler of day is Saturn and his number is 8.

(vii) Sun rules the hour in which the race is run. For this refer to "Table of Planetary Hours" in Chapter II of this book. Sun's number is 1.

(viii) Saturn rules the sub-period in which race is run. Saturn rules number 8.

(ix) Now we add the numerical values of the following:—

(a) Name of Race.....	Gatwick	=2	see step(i)
(b) Date of running the race, 4th Nov.1954=	8	„	(iv)
(c) Ruler of day.....	Saturn	=8	„ (vi)
(d) Planet ruling the			
hour, race is run	Sun	=1	„ (vii)
(e) Planet ruling the sub-			
period in which race is run...Saturn		=8	„ (viii)

Total 27

(x) Reducing 27 to a single digit we get 9.

(xi) Now let us refer to "Table of Friends Number" given in chapter III. See if the single digit 9 (arrived at by step 'x') is friend to numerical value of names of any of the horses (Refer to step 'ii' for numerical values of names of horses). Single digit 9 is friend to

numbers " 4, 6, 7 and 8" per our " Table of Friend Number". Squire, having numerical value 7, is friend to number 9. Hence Squire represents the probable winning horse. Moreover Squire's official number "6" is also friend to resultant single digit 9. Hence the chances of Squire winning the race are the brightest.

Second Method of finding the Probable Winner in Horse-Race

Theory of Winning Weights

Let us consider the question of weights to which great importance is attached in racing. The capacities of horses vary according to age, height, class and breed. If all the horses were to start level the best horse would always win and there would be no chances for betting. Hence the chances of the runners, good, bad and indifferent, should be equalised artificially by allotting them weights to be carried by each in keeping with its reputation for past performances and with other important facts. The weight so allotted includes everything that the horse carries on his back or body—the bridle, reins, saddle, stirrup and above all, the weight of the rider. If all this does not amount to the required, the deficiency is made up with lead sheets cleverly concealed in the saddle.

If you look at your race-card, you will find that there are two kinds of races. There are "handicaps", and then there are "terms". In case of 'handicaps' an officer, known as 'Handicapper', does the work of allotting the weight a horse is to carry. But in 'terms' races, animals carry weights according to a fixed scale, penalties added and allowances deducted; the scale is

← penalties

either W. A. or W. I. The former denotes weight for age, while the latter represents weight for inches.

It is generally considered by students of form that a load of 15 pounds on the back of a horse makes a difference of one second in the time of running or 3 lengths in the distance in races upto a mile. For instance, Husky and Cintra, starting on equal terms, finish the five furlongs race in one minute, Husky a length behind Cintra. Then, as per the theory of weight, the next time they meet in race, their chances will be equal if Cintra is saddled with 3 pounds more than Husky. Thus the form-experts are always in a battle of wit with the handicapper.

However, I give you here a method of determining winning weights, without any preamble It is very simple. I hope that you will find the method better than other methods. No elaborate calculations are needed except additions and subtractions.

Here is the formula for calculating the winning weight:—

$$d = \frac{(x - 9) 4 n}{81} + 4$$

Here X is the scale, that is, the difference in pounds between the two extreme weights, viz., the top weight and the bottom weight of the runners;

N is the numerical value of the planetary sub-periods;

D is the difference in pounds which, deducted from top weight or added to bottom weight, gives two weights one of which is that of the likely winner.

Let me illustrate this formula by a concrete example. On Saturday, the 4th November 1954, at 6-20 P. M. I. S. T., the Gatwick plate was run at Bombay. There were twenty good Arabs on the card, of which only two declined. Husky was the top-weight, 10st. 5lbs., and Cintra was the bottom-weight, 9st. 5lbs. The sub-period value was calculated as under:

	H.	M.
Standard Time of Race	18—	20
Less Sun Rise time on that day	7—	0
The race was run	11—	20 after sun-rise.

Now as per table of "Planetary Hours" given in Chapter II you will find that the race was run in the planetary hour of Sun. Further by referring to table of "Planetary Sub-periods of hour" in the same chapter you will find that the race was run in the sub-period of Saturn. Hence the numerical equivalent of Planetary hour and Sub-period is 1+8=9. The scale was 10st. 5lbs.-9st. 5lbs.=1st.=14 lbs. Substituting these values in the formula, you have:

$$\begin{aligned} d &= \frac{(14 - 9) 4 \times 9}{81} + 4 \\ &= \frac{(5) 4 \times 9}{81} + 4 \\ &= \frac{5 \times 4 \times 9}{81} + 4 = 2 + 4 \\ &= 6 \text{ lbs (in a round figure) } \end{aligned}$$

Subtracting 6 lbs. from 10st. 5lbs. and adding it to 9st. 5lbs., the top and bottom weights respectively, you have 9st. 13 lbs. and 9st. 11 lbs. as the weights indicated of the likely winners.

Now Scanning through your card for horses carrying these or the nearest weights, you find the following:—

	St.	lbs.
Baktavar	9—	8
Squire	9—	13
Hishan	9—	7
Hamiar	9—	11

According to our rules Squire and Hamiar carried the weights indicated of the likely winners. But Hamiar was scratched out. Of the remaining three Squire won. Squire carried weights indicated of the likely winner.

Note:—So by both the methods Squire has the brightest chances of winning the race. Squire came out successful in race as per the official announcement.

(c) Some Important Suggestions on Racing

Besides the above two methods I suggest to you following very important points which you should keep in mind on the race day. You should use these points intelligently to find out the probable winner.

(1) See some Hindi or Urdu Panchang and find out Nakshtra, the Moon is transitting on the race day. If the Moon transits any of the following Nakshtras: Rohini, Mirgasira, Pushya and Magha, then it is certain that some dark flukes will win on that day.

(2) If the Race day falls on New Moon's day (Umavas), the horses carrying bottom weights will proba-

bly score wins. But if the race day falls on Full Moon's day (Poornima), the horses carrying top weights will score wins. Specially if New Moon's day occurs on Tuesday and Moon and Mars make conjunction on that day, then horses carrying bottom weights have the brightest chances to win. Again if the Full Moon's day falls on Saturday, Sun or Moon making conjunction with Saturn then horses carrying top-weights have golden chances to win.

(3) On the 6th, the 7th, the 8th day from New Moon's day, if Moon forms conjunction with Jupiter, then the horses carrying middle-weights will score wins.

Again on the 6th, 7th, the 8th day from Full Moon's day, if Moon forms conjunction with Venus, then the horses carrying middle-weights will score wins.

(4) Please refer to our "Six Years' Astronomical Bhartiya Ephemeris-1955 to 1960 A.D" by Pt. Ganga Pd., Jyotishacharya, Morar (M. B.). This contains longitudes of the planets according to Sayan System. From the longitudes of the planets given in this Ephemeris, subtract $23^{\circ}15'$ to get longitudes of the planets according to Nirayana or Indian system. Now see if any of the following occurs on the Race day:—

(a) If the Sun transits Aries, Taurus or Capricorn, numbers 1 and 4 are likely to win.

(b) If the Sun transits Aries, Taurus or Capricorn and the degree of the longitude is either 4° or 10° or 13° , then it is certain that numbers 4, 10 or 13 will score many wins on that day. But if the longitude of the Sun

is neither 4° , nor 10° nor 13° then Nos. 4, 10 and 13 will score some wins.

(e) If the Sun transits Leo, Scorpio or Pisces and the degree of the longitude is either 4° , 10° or 13° , numbers 4, 10 or 13 will score many wins on that day.

(d) If the Moon transits either Taurus or Cancer on the race day and longitude of Moon is 2° or 7° , or 11° or 16° , numbers 2, 7, 11 or 16 will be likely winners in many races.

(e) If Mercury transits either Gemini or Virgo on the race day and if the longitude of Mercury is 5° or 14° , numbers 5 and 14 have brightest chances to win.

(f) If Venus transits either Pisces or Taurus or Libra on the race day and if the longitude of Venus is either 6° or 15° , numbers 6 & 15 will be likely winners in many races.

(g) If Mars transits either Capricorn or Aries or Scorpio and if the longitude of Mars is either 9° or 18° , numbers 9 and 18 have brightest chances to score many wins.

(h) If Jupiter transits either Cancer or Sagittarius or Pisces and if the longitude of Jupiter is either 3° or 12° , numbers 3 and 12 will score many wins.

(i) If Saturn transits either Libra or Capricorn or Aquarius and if the longitude of Saturn is either 8° or 17° , numbers 8 and 17 will be likely winners in many races on that day.

N. B.—I have given above some practical suggestions about the planets transitting various zodiacal signs. Suppose at the time of the race, Sun transits Aries and

the longitude of Sun is 4° . I have already told you that numbers 1, 4 or 10 are probable winners in many cases. But in this race if number 1 does not run, you should back numbers 4 and 10. But if the number 4 gets the Draw number either of 1 or 4 or 10, number 4 is then sure winner. But if the number 4 gets the draw number of 5 and number 10 gets the draw number of 4, you should back number 10 as both numbers 10 and 4 are the Sun's numbers. In case of the other planets transitting various zodiacal signs, either of their exaltation or their own houses, if the horses carrying those numbers do not run, you should back these horses carrying their Draw numbers.

(5) Please refer to our "Six Years' Astronomical Bhartiya Ephemeris—1955 to 1960 A.D." by Pt. Ganga Prasad, Jyotishacharya, Morar (M. B.). This contains mutual aspects between the planets along with exact times during each day. If Square or Opposition aspect is formed during the race-time, it is certain that a fluke horse will win the race. But if Trine or Sextile aspect is formed, then some favourite horse will score the win.

You may guess the probable winning numbers by observing the following broad hints:—

(a) If a Square or Opposition aspect is formed between the Sun and the Moon during the race-time, the numbers of the Sun and the Moon—1, 4 and 2, 7 will be probable winners.

(b) If a Square or Opposition aspect is formed between the Sun and Jupiter during the race-time, the numbers of the Sun and Jupiter—1, 4 and 3 will be probable winners.

(c) Similarly if a Square or Opposition aspect is formed between the Sun and any other planet, their numbers should be supported for a win.

(d) If a Trine or Sextile aspect is formed between the Sun and any other planet their numbers should score probable winners.

(e) If there is a Square or Opposition aspect between the Moon and Mercury during the race-time, their numbers 2, 7 and 5 will score win.

(f) If a Square or Opposition aspect is formed between the Moon and Mars during the race-time, the numbers of Moon and Mars—2, 7 and 9 will be probable winners.

(g) If a Trine aspect is formed between the Moon and Mercury during the race-time, the numbers of the Moon and Mercury—2, 7 and 5 will score wins if any number is a favourite.

(h) If a Square or Trine aspect is formed between Venus and Mars on the race-day, the numbers of Venus and Mars—6 and 9 will be probable winning numbers.

N. B.—I have not given the effects of all aspects between all planets. Rather I have given broad hints to enable you to arrive at some judgment.

CHAPTER VII

Application of Numbers to American Cotton Futures

(a) **General**—This chapter mainly deals with cotton trade. In the beginning we should know all details of cotton trade.

The cotton is best cultivated in those places where land is fertile, seeds are best available and the climatic conditions are favourable to cotton-growing. If the farmer is clever, he can produce even 200 Ratal cotton in an acre of land. America leads the cotton producing countries. Next comes India. Egypt, China and Russia occupy the third and fourth places respectively. Egyptian cotton ranks the first in quality. American and Indian cotton are second and third rate in quality.

America leads in cotton production. America is also the biggest business centre of cotton-production and trade. Businessmen should note that there are four chief centres of cotton trade—America, Europe, England and India.

We come to know from a study of Geography and Astrology that season differs in every country. Here we should note down the difference in American and Indian climate. Rainy season begins in India in the months of July--August, while in America the rainy season starts in March--April. The sowing season also differs in the same way.

In America	100	future	=	1	Cent
	100	Cents	=	1	Dollar
	20	Dollars	=	1	Rial

When future costs 1071, at that time 21 Ratal cotton costs 1 Dollar.

The prices ruling in America at the time of opening of American Market are known as "Opening-prices" in India. But the prices ruling in America at the time of closing of American Market are known as "Closing-prices" in India. The future Opening and Closing transactions are done at various places in India—Calcutta, Bombay, Patna, Indore, Kanpur, etc.

In future transactions businessmen deal on figures-1 to 9 and 10 to 100. Speculators usually pays Rs. 9/- for one figure of Rupee one. This is known as future or speculation-transaction.

(b) Rules of Speculation (Future--Transactions)

Now-a-days people usually deal more in Future transactions than in Ready transactions. But only the lucky few make money out of future transactions. We usually receive letters from various businessmen that they could not gain out of future transactions due to one reason or the other. Hence one should deal in future transactions only when there are such yogas (in native's horoscope) which may yield him money through future transactions or native is passing through such "Vinshottari Dasha" or "Ashtotari Dasha" where the Mahadasha of the ruler of Second or Eleventh House exists or planets, ruling Second or Eleventh House, occupy the First, Fifth and Ninth House of Horoscope or the same planets occupy the First, Fourth, Seventh and Tenth House or the benefic planets-Jupiter, Mercury or Venus—forms Inter-Dasha

with the planets ruling the Second or Eleventh House. Those persons who enter future transactions at the time of malefic planets lose all their wealth. Speculation is the foremost enemy. This has ruined a large number of wealthy persons. Many have lost their lives even. Hence it is my sincere advice that you should not deal in future transactions so long as you are earning in some Ready transactions.

Now-a-days people all over the world are dealing in future transactions. In America and England you will find top-most speculators. But these people understand the principles and rules of speculation very well, while most of our Indian businessmen are ignorant of the rules and principles of speculation, rather they do it relying on blind faith of some Mahatamas and saints who do not know even the meaning of speculation. They realise their follies when they lose their every thing. In America, speculators enter future transactions on sound basis and calculations. They deal on short margins and not on wide margins as Indians do. Indians want to become rich overnight by speculation. This is the only folly they do.

However, you may find out figures of speculation by applying the sound principles of Astrology given in some standard book. We enumerate in this book some of the outstanding principles of astrology in this field. You may yourself find out figures of speculation by applying the principles of this book. You may also consult some learned astrologers in this respect. You should first ask the astrologer as to whether planets in your ho-

roscope are favourable in gaining money by speculation and then ask him for figures of speculation. Pandit Ganga Prasad, Jyotishacharya, Morar has a world-wide reputation in this respect. You may consult him on such and other allied points reliably. If you speculate on sound principles, applying the rules given in this book, you are sure to gain in speculation. You may earn at least Rs. 500/- to Rs. 600/- per month. But you must keep separately a sum of Rs. 300/- to Rs. 400/- before entering in speculation. I may warn you that you should always try to speculate on short margins only except when the conditions are most favourable to deal on wide margins.

(c) Planetary Aspects helping acquisition of Wealth by Speculation.

(a) A native will become rich by dealing in Silver, Cotton, Clothes, Yarn, Silk, Mills and Factories, if zodiacal signs—Taurus and Pisces and the planet—Venus occupy Second House of his horoscope.

(b) A man will become rich easily by speculation, Lotteries, Cotton future, Gambling if Mercury, Venus and Saturn occupy the fourth house in zodiacal signs—Taurus, Cancer and Libra in his horoscope.

(c) A man will gain wealth from Horse-Racing, Lotteries and hidden source if Sun and Jupiter occupy the fifth house in zodiacal signs—Aries, Cancer, Leo, Sagittarius—in his horoscope.

(d) A man will gain wealth all of a sudden by future transactions if either Jupiter or Mercury or Venus

occupies the Eighth house in zodiacal signs—Taurus, Cancer, Virgo and Pisces—in his horoscope.

(e) A native will get wealth from the business of Iron shares, mustard seeds, Gwar, Gur if either Mercury or Jupiter or Venus occupies the Ninth house in zodiacal signs—Cancer, Virgo, Pisces.

(f) A native will become millionaire by dealing in shares, Iron, Machines, Oil, Alsi and Mustard seeds, groundnuts, blankets, wool, goat, buffaloes if Saturna occupies the Tenth house in zodiacal signs—Libra and Capricorn.

(g) The man in whose horoscope either Moon, Mercury or Saturn occupies the Eleventh house in zodiacal signs—Taurus, Virgo, Libra—will get huge amount of wealth from the business of Motors, Mills, Clothes, Jewels, Steamer or Hidden source, Lottery, Tata Deferred and Iron shares. The man having above yogas may become proprietor of Big Factories and Mills.

(h) If Mercury, being the ruler of Second houses occupies the Eleventh house, then this yoga will give the native good amount of wealth from future transactions.

(i) If Rulers of First, Second and Eighth house occupy the Eleventh house, then the native will gain wealth from future transactions.

(j) Moon in Eighth house in zodiacal signs—Taurus and Aquarius—without being watched by Malefic planets will yield the native good amount of wealth from American future transactions.

(k) The native will gain from forward business if Jupiter in Pisces occupies either the Second or Seventh or Eleventh house.

(l) The native will gain from dealings in Shares, Mustard seeds, Gold, Alsi, Cotton if either Sun or Jupiter or Mercury occupies the Eleventh house in zodiacal sign Gemini.

(m) Mars in zodiacal sign Taurus, occupying either the First or the Fourth or Seventh or Tenth House, will yield the native good profit from future business and he will become a Millionaire.

(n) Jupiter in zodiacal sign—Sagittarius in First house will yield the native good profit from gold business.

(o) Moon in Cancer, occupying the Eighth house will yield the native good profit from Silver Trade.

(p) Venus in Libra, occupying the Eleventh house will yield the native huge profit from Silver or Gold Trade.

(q) Mercury in Virgo, occupying either Second or Tenth house will make the native millionaire from trade.

(r) Mercury in zodiacal sign—Gemini and Virgo, occupying Seventh house will yield the native good profit from future transactions in Cotton and Silver shares.

(s) Venus in Pisces, occupying the Fourth house will make the native millionaire from lottery or hidden wealth.

(t) Mars in Taurus, occupying the Sixth house will yield the native hidden wealth.

(u) Jupiter either in Capricorn or Cancer, occupying the Sixth house will give the native hidden wealth.

(v) Venus in Taurus, occupying the Fourth house will yield the native land and property without any effort.

(w) Sun in Cancer in First house, Saturn in Libra in Fourth house, Mercury and Venus in Leo-Virgo in Second or Third house will certainly make the native millionaire.

N. B.—Persons having the above yogas will certainly gain from Forward transactions. But persons, having no such yogas, should not enter into Future transactions otherwise they will lose badly. Hence persons, entering Future transactions, must, first of all, ascertain either from the above yogas or from a good and learned astrologer whether he will gain from future transactions or not. After ascertaining this fact then he should decide whether to deal in future transactions or not. You may also write to us along with your horoscope and we shall communicate to you if you should deal in Future transactions or not. We charge a nominal fee of Rs. 5/- only for this.

Rules for Application of Numbers to American Cotton Future.

(1) First of all find out the date of month, you are born. Suppose you are born on 6th or 15th or 24th of any month. Then you are ruled by number 6 which will be your fate or name number.

(2) Then ascertain the week day of the month you are born. If the week day is Friday, which is ruled by number 6, then it is certain that number 6 will play important part in your life. Even if you are born on the week day Wednesday i.e., day of Mercury or the week day Saturday i.e., day of Saturn, still number 6

will play an important part in your life in as much as Mercury, Venus and Saturn are friends in the heavenly cabinet.

(3) Again if the birth dates 6th, 15th or 24th and the week day of the birth Friday happen to fall during the periods of the year when the Sun transits the zodiacal sign, Taurus between 23rd April and 23rd May and the zodiacal sign, Libra between 23rd September and 23rd October every year, then number 6 will definitely play an important part in your life.

(4) Further if you are born on that hour of aforesaid dates, falling on Friday during the above two periods as mentioned in rule 3 above in which the ruler of hour is Venus, then your lucky number 6 will have most outstanding effects on you. You should plan and execute all your important work on 6th, 15th or 24th, falling on Friday, during the aforesaid periods, but more particularly in that hour of aforesaid dates when the ruler of hour is Venus.

(5) However, it may be noted that it is not possible that all the above four factors should coincide. But even if two or three of these four rules coincide, then you must bank on number 6 as your lucky or fate number.

(6) The same principles apply to other numbers and so always find out the number which influences success in your life and bank on the number so found out accordingly.

(7) Besides the above rules, write your full name and then put down the alphabetical values of your name and find out the name or fate number as explained in Chapter III. If this name number agrees with the number of the birth date, week day and the periods of the year as explained in rule number 3, then you can safely bank on this name number. But if this name number does not agree as above, then make such a minor change—either in the spelling of your name or altogether in your name—that the name number of the altered name coincides with your birth date, week day and the periods of the year as mentioned in rule 3. Similar rule will apply to other numbers.

(8) Now we should find out whether you will gain from "Cotton Future New York". We should therefore find out the numerical values of world "Cotton Future New York" as under as explained in chapter III.

Cotton	Future	New	York
384485	864645	556	1842
32	33	16	15

Adding the numbers given in Second line above we get 96, which is equivalent to 15 and this reduced to a single digit is equivalent to number 6.

Now this number coincides with your name number 6 which in turn coincides with your birth date. Under these circumstances you are sure to gain from Cotton Future New York.

Further you should deal in "Cotton Future New York" on Friday which is ruled by number 6. Besides this if you deal in "Cotton Future New York" during the

periods mentioned in rule 3 above and on Friday the result will be most encouraging.

(9) If you deal in "Cotton Future New York" in which the first or second digit wins, then follow the rules detailed below:—

(a) Deal in that figure of "Cotton Future New York" of which the unit's digit agrees with your name number.

(b) Deal in that figure of "Cotton Future New York" of which the unit's digit as well as ten's digit, when reduced to a single digit, coincides with your name number.

Suppose your name number is 6. According to above rules you should deal in that "Cotton Future New York" of which the figures are 6, 96 etc. Here the unit's digit 6 coincides with your name number. Again in figure 96, the unit's digit is 6, which coincides with your name number 6. Further the ten's digit 96, added together and reduced to a single digit, is equal to 6, which itself is your name number. Hence the figures 6 and 96 of "Cotton Future New York" should prove fortunate for those who are ruled by number 6.

(c) You should deal in such a figure of "Cotton Future New York" on Friday which rules number 6.

(d) Besides all this, if this figure of "Cotton Future New York" is dealt with on 6th, 15th or 24th of the months, falling on Friday, during the periods as mentioned in rule 3, the result will be most encouraging.

(10) You will gain by dealing in that figure of "Cotton Future New York" which (figure) when reduced to a single digit coincides with your name number.

Suppose your name number is 6. Hence you will gain by dealing in these figures—15, 24, 33, 42, 51, 60, 69, 78, 87, 96—of "Cotton Future New York", because these figures when reduced to a single digit are equivalent to name number 6.

(11) Besides the above rules you can find out the figures of "Cotton Future New York", which may prove profitable by referring to table of Friends Number—table number 4—Chapter III. Those figures (either single or resultant single digit of compound number) of Cotton Future New York which are friend to your name number (Refer to table of Friends Number) will be profitable to you.

Suppose your name number is 6. This number 6 is friend to number 4, 7, 8. Hence figures 4, 7, 8 of Cotton Future New York will be profitable to you. Further the compound numbers of 4, 7 and 8 will also be profitable figures of "Cotton Future New York" for you. Compound figures of 4 are—13, 22, 31, 40, 49, 58, 67, 76, 85, 94. Similarly the compound figures of 7 are—7, 16, 25, 34, 43, 52, 61, 70, 79, 88, 97—and those of 8 are—17, 26, 35, 44, 53, 62, 71, 80, 89, 98. These compound figures and figures 4, 7 and 8 will be profitable figures of "Cotton Future New York" for you.

31	1	2	3	4	5	6	7	8	9	1	2	3	4	5	6

Example—New York Cotton Future

On opening of cotton future market, please see Sun's position in degrees from the table and on closing please see Moon's position in degrees from the table.

Even degrees of Sun's position denote fall and odd degrees of Sun's position denote rise; while odd degrees of Moon's position denote fall and even degrees of Moon's position denote rise.

Take Sun's position from opening of market (I.S.T. 10-30 A.M.) (Nirayan system). Take Moon's position from closing of market (8-30 P. M.) The numerical values of zodiacal signs of Sun and Moon will be same. The numerical values of zodiacal signs are given below. These are calculated as per method explained in Chapter III.

Names of Zodiacal Signs	Their Numerical values
Aries	8
Taurus	9
Gemini	1
Cancer	3
Leo	7
Virgo	4
Libra	2
Scorpio	2
Sagittarius	1
Capricornus	4
Aquarius	1
Pisces	2

We have to find out the opening and closing figures of cotton future New York on 30th November, 54. 30th November, 54 falls on Tuesday.

Numerical values of certain data required for the forecast of opening figures are given below:—

1. 30th November = 1 + 3 ... = 4 (Refer to Table No. 3 Chapter III).
2. 1954 = 1 (This is found out by adding all the figures of 1954)
3. Tuesday = 9 (Refer to Chapter II)
4. New york cotton future = 6 (as per Method explained in Chapter III)
5. „ opening = 3 „ „ „
6. „ closing = 6 „ „ „
7. Sun's position at opening of market (I. S. T. 10-30 a. m.) is in Scorpio, wherein numerical value of Scorpio is = 2
8. Sun's position on 30th is 14°. Now 14 from Table No. 5, opposite Date 30 = 7

Total of all the above numbers 1 to 8 = 38 = 11 = 2

Thus 2, 11 and 20 are the figures you may deal in at the opening of market.

Numerical values of certain data required for the forecast of closing figures are given below:—

1. 30th November..... = 4 (as explained above)
2. 1954 = 1 " "
3. Tuesday..... = 9 " "
4. New york cotton future..... = 6 " "
5. " opening..... = 3
6. " closing = 6
7. Moon's position at closing
(8-30 p. m.) is in Capri-
cornus, wherein numerical
value of Capricornus is..... = 4
8. Moon's position on 30th is
in 13°. Now 13° from
Table No. 5 opposite date 30 = 6

Total 1 to 8 = 39 = 12 = 3

Thus 3, 12 and 21 are the figures you may deal in
at the closing of market.

N. B.— New York Cotton Future

29th closing	=	34.	73
30th opening	=	34.	71
	=	.2	Fall
29th closing	=	34.	73
30th "	=	34.	52
	=	.21	Fall

CHAPTER VIII

Dhruwanka Deepak

(a) **First System**—These are also based on Science of Numbers. Without giving you a glimpse of "Dhruwanka" this book remains incomplete. You can know the details of all the worldly things, besides cheapness and dearness through these Dhruwanka.

It is a question of Keral Science. After studying the same you can do business entirely to your satisfaction. Please refer to Shree Mahalaxmi Panchang for Dhruwanks.

(1) New Sankranti Dhruwanks are:—

Mesh.	Vrishabha	Mithun	Karka	Singha
32.	44	22	25	19
Kanya	Tula	Vrikshik	Dhan	Makar
17	20	19	16	19
	Kumbha	Meen		
	28.	14		

(2) Days Dhruwanks are:—

Sunday	Monday	Tuesday	Wednesday
4	16	8	10
Thursday	Friday	Saturday	
12	10	16	

(3) Months Dhruwanks are:—

Chaitra	Vaishakh	Jestha	Ashad
25	23	21	19
Shravan	Bhadrapad	Asho (Ashavin)	Kartik
17	15	13	15

Magsar	Posh	Magh	Fagan
17	19	21	23
Adhik Month			
16			

(4) Tithi Dhruwanks are:—

Sudi														
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15
8	7	5	3	5	7	9	11	13	23	17	19	21	23	25
Vadi														
1	2	3	4	5	6	7	8	9	10	11	12	13	14	30
8	7	5	3	5	7	9	11	13	23	17	19	21	23	25

(5) Nakshtra Dhruwanks are:—

Ashvini	Bharni	Kritika	Rohini	Mrugshirsha
10	10	96	9	20
Ardra	Punarvasu	Pushya	Ashlesha	Magha
13	21	17	19	21

Rule of Forecasting Daily Rise and Fall in Prices of Commodities and Shares by First System

We have written above the Dhruwanks of the articles to see rise and fall—1 Sankranti, 2 Days, 3 Months, 4 Tithi, 5 Nakshtra, 6 Yog and 7 the name of articles.

Add up all these seven numbers and multiply the added figures by 7 and divide the result by 4. We should consider the rise and fall upon the remainder. If the remainder is 1, then it will be rise, while if the remainder comes 2, then forecast a little rise. But if the remainder comes 3, then it will remain unchanged i.e., stationary. Further if the remainder comes 4 i.e., 0, then you may foretell fall and there will be a loss in money matter.

N. B.—Besides the above if any thing about the Sorat is to be predicted or found out and how many tickets of the Soratare to be out, then first make it certain and find out which number is to come. This will be exactly found out. We are giving special Dhruwanks for all types of shares along with other articles in every market. Please refer to our Mahalaxmi Panchang for Dhruwanks.

(b) Second System of Dhruwanka Deepak

(1) New Sankranti (Rashi) Dhruwanks are:—

Mesh	Vrishabha	Mithun	Karka	Singha
521	771	555	272	821
Kanya	Tula	Vrikshik	Dhan	Makar
252	575	782	551	527
Kumbha	Meen			
661	568			

(2) Days Dhruwanks are:—

Sunday	Monday	Tuesday	Wednesday
155	850	841	156
	Thursday	Friday	Saturday
	772	826	825

(3) Tithi Dhruwanks are:—

Pritipada	Dutiya	Tirtiya	Chaturthi	Panchm
736	773	571	574	125
Shasti	Saptami	Ashtami	Navami	Dashmi
340	857	147	573	377
Ekadashi	Dwadashi	Tiryodashi	Chaturdashi	
278	279	556	578	
Purnima	Amavashiya			
657	157			

(4) Nakshtra Dhruwanks are:—

Ashvini	Bharni	Kritika	Rohini	Mrugashirsha
185	674	252	784	681
Ardra	Punarvaso	Pushya	Ashlekh	Magha
136	628	525	128	664
Purvafalguni	Uttarafalguni	Hasta	Chitra	
667	157	855	350	

Svati	Vishakha	Anuradha	Jestha	Mula
882	753	752	724	624
Purvashada	Uttarashada	Shravan	Dhanishtha	
670	677	876	674	
Sbatabhisha	Purvabhadrapada	Uttarabhadrapada		
554	551	368		
Revati	Abhijat			
174	770			

(5) Dhruwanks of Articles of other kinds:—

Gold	Silver	Copper	Mustard	Kathir
235	769	572	266	240
Jasta	Iron	Mercury	Sulphur	Cotton
786	938	927	874	753
Wool	Jute (Bardana)	Turmaric	Cotton future	
159	747	175	792	
Hing	Dhaniya	Lal Mirach	Kali Mirach (Black	
821	542	177	2396	
Pepper)	Long	Jira (Cuminseed)	Saunf (Aniseed)	
	735	471	288	
Badam (Almond)	Pishta (Pistashio)	Chironji		
260	193	282		
Kishmish (Raisin)	Khopra	Kaju	Chilgoza	
320	168	362	257	
Akhrot (Walnut)	Munakka (Currants)	Chuara		
441	396	881		
Makhane	Dalchini (Cinnamon)	Supari (Betel-nut)		
1176	475	895		
Katha (Catechu)	Elayachi (Cardamom)	Kapoor		
249	363	259		
(Camphor)	Keshar (Saffron)	Colour	Red (Lal)	
	361	288	171	

Pila (Yellow)	Gulabi	Hara (Green)	Nilā	
270	442	704	673	
Safed (White)	Wheat	Jawar (Millet)	Chana	
234	475	371	817	
(Gram)	Mautha	Bajra (Millet)	Jau (Barley)	
	725	777	702	
Rice (Chanval)	Tili (Sesame)	Tuar	Masur	
322	570	577	687	
Alsi (Linseed)	Sarson (Mustard)	Soha	Guar	
377	840	267	247	
Matar (Peas)	Til Oil (Sesame Oil)	Alsi Oil		
389	407	932		
(Linseed Oil)	Sarson (Mustard) Oil	Khopra		
	741	879		
(Cocoanut) Oil	Oil Sugandh	Ghee	Sugar	
	764	455	757	
Gur	Khand	Woolen Cloth	Silken Cloth	
447	247	341	467	
Cotton Cloth	Zari Cloth	Medicine	Umbrella	
572	389	224	197	
Chashma	Dry Milk	Machinery	Hosiery	
465	357	281	392	
Cream	Paints	Blades	Battery (Torch)	Motar
464	261	986	760	1220
Cycles	Spirit	Wine	Leather Articles	Rubber
951	847	784	654	338
Articles	Lakh	Chappra	Jute things	Vardana
	416	322	296	515
Jewels	Moti (Pearl)	Hira (Diamond)	Panna	
321	338	725	259	

(Emerald)	Pukhraj (Topaz)	Nilam (Saphire)		
	474	944		
Manik (Ruby)	Watch	Fountainpen	Ink	
289	461	297	424	
Kasturi (Musk)	Bahera	Harra	Narial	Sajji
285	784	864	577	874
Rai (Mustard)	Ajmod	Sun	Mooj	Urad
44	176	842	113	743
(Black-kly)	Kangani	Castor-Seed		Kulthi
	234	772		274
Moong (Green-kly)	Jai (Oat)	Paddy (Dhan)		
703	770	376		
Macca (Maize)	Sabudana (Sago)	Ayudh	Hathi	
178	474	411	884	
(Elephant)	Unt (Camel)	Bail	Gaya (Cow)	
	413	644	213	
Khar (Ass)	Horse	Goat	Buffalo	Ivory
270	220	270	672	325
(Hathi-danta)	Tin	Platinum	Uranium	
	447	1173	2364	

(6) Special Market Shares' Dhruwanks are:—

(a) Bombay Share Market—Names of shares with Dhruwanks.

Tata Deferred	Tata Ordinary	Bombay Drawing	
1431	457	1734	
Ahmedabad Advance	Central India	Century	
743	241	645	
Colaba	Gokak	India Bleaching	Indian Iron
157	578	373	1238
Kohinoor	Sholapur	Simplex	Svadeshi

Rules of Forecasting Daily Rise and Fall in Prices of Commodities and Shares by Second System

The day on which you want to know we should calculate as under:-

- (i) Sankranti Dhruwank.
- (ii) Days "
- (iii) Tithi "
- (iv) Nakshtra "
- (v) City "
- (vi) Articles, " i.e., the thing about which we want to know.

We should add all these Dhruwanks and divide the result by 9. The remainder will decide the rise and fall. If the remainder is 0, 1, 3, 7 then prices will rise and if the remainder is 2, 4, 5, 8 the prices will fall, but if the remainder comes to 6 the prices will remain unchanged.

N. B.-In American Cotton Future add all the above six Dhruwanks and then divide the result by 100. The remainder will decide the rise and fall. If the remainder is even number, then the prices will rise. But if the remainder is an odd number, prices will fall.

Example 1. You have to find out whether prices of Gold and Silver will rise or fall on 18th November 54 in Bombay Market.

Solution:-From our Shree Mahalaxmi Panchang or some other Panchang, find out Sankranti, Day, Tithi and Nakshtra on 18th November 54.

Now we note Dhruwanks of Sankranti, Day, Tithi, Nakshtra, etc., as below from Second System of Dhruwank Deepak given above:—

		Silver	Gold
Sankranti	= Vrikshik	= 782	= 782
Day	= Thursday	= 772	= 772
Tithi	= Navami	= 573	= 573
Nakshtra	= Magha	= 664	= 664
City	= Bombay	= 9	= 9
Article	= Silver	= 769	Gold = 235
		<u>3569</u>	<u>3035</u>

Divide 3569 by 9, the remainder is 5. This denotes there will be fall in prices of silver on 18th November 54 on the basis of rules given above. Again divide 3035 by 9, the remainder comes 2. This again denotes there will be fall in prices of Gold also on 18th November 54 as per rule given above.

Example 2. Find out the rise and fall in figure of Cotton Future New York on 30th November 54.

Solution- From our Shree Mahalaxmi Panchang or some other Panchang find out Sankranti, Day, Tithi and Nakshtra on 30th November 54 and note down their Dhruwanks as below from Second System of Dhru-

want Deepak given in previous pages.

Sankranti	=	Vrikshik	=782
Day	=	Tuesday	=841
Tithi	=	Panchmi	=125
Nakshtra	=	Uttarashadha	=677
City	=	New York	= 4
Article	=	Cotton Future	=792

3221

Dividing 3221 by 100, we get 21 as remainder. The remainder is an odd number. Hence the figure will show fall as per rule given above.

Table No. 6

Table to find out prices in annas from the Remainder as found out by Rule of forecasting Daily Rise and fall in prices of commodities and shares by second system given in previous pages.

Date	Remain-der No.1	Remain-der No.2	Remain-der No.3	Remain-der No.4	Remain-der No.5	Remain-der No.6	Remain-der No.7	Remain-der No.8	Remain-der No.9

29	1½	2	2½	3	3½	4	4½	5	1
30	2	2½	3	3½	4	4½	5	1	1½
31	2½	3	3½	4	4½	5	1	1½	2

Rule:--(a) If the tithi on the day in question lasts between 1-30 Ghatis (Indian Clock-time of 24 minutes in one ghati), then deduct the result arrived at by Table No. 6 from the result arrived at by Table No. 7. The net result will indicate the rise or fall in prices in Rupees and annas.

(b) But if the tithi lasts between 31-60 Ghatis, then add the results arrived at by both tables Nos. 6 & 7. The net result will indicate the rise or fall in prices in Rupees and annas.

Explanation:--From example 1 on Page 101, you find that the remainder in case of Silver is 5 which denotes a fall in prices of Silver on 18th November 1954. But this does not indicate fall in prices in Rupees and annas. We can find out fall or rise in prices in Rupees and annas from Remainder by referring to Tables Nos. 6&7.

Now refer to date 18th in Table No. 6 against Remainder 5, you will get number 1, indicating fall of Anna 1 in prices.

Also refer to date 18th in Table No. 7 against Remainder number 5, you will get number 2½, indicating fall of Rs. 2½ in prices.

But the tithi Navmi on 18th November 1954 lasts for 53 Ghatis. This means that we should follow Rule (b) given above i.e., add up the results arrived at by both Tables Nos. 6 and 7.

Hence we will add up the results arrived at by both Tables Nos. 6 and 7 as above. The net result will be a fall in prices of Silver by Rs. 2/8/- + -/1/- = Rs. 2/9/- on 18th November 1954.

Similarly we should predict the fall in prices of Gold in Rupees and annas in example 1 on page 101.

From this example you find that the Remainder number in case of gold is 2 which denotes a fall in prices of Gold on 18th November 1954. But this does not indicate fall in prices in Rupees and annas. We can find out fall or rise in prices in Rupees and annas from Remainder number by referring to Tables Nos. 6 and 7.

Now refer to date 18th in Table No. 6 against Remainder number 2, you will get number 3, indicating fall of annas 3 in prices.

Also refer to date 18th in Table No. 7 against Remainder number 2 you will get number 1, indicating fall of Re. 1/- in prices.

But the tithi-Navmi-on 18th November 1954 lasts for 53 Ghatis. This means that we should follow Rule (b) given above i.e., add up the results arrived at by both Tables Nos. 6 and 7.

Hence we will add up the results arrived at by Tables Nos. 6 and 7 as above. The net result will be a fall in prices of Gold by Re. 1/- + -/3/- = Re. 1/3 on 18th November 1954.

Example 1.—You have to find out whether prices of cotton will rise or fall on 10th December 54 in Bombay Market.

Solution:—From our Shree Mahalaxmi Panchang or some other Panchang, find out Sankranti, Day, Tithi and Nakshtra on 10th December 54 and then find out their

Dhruwanks as below from Second System of Dhruwank Deepak.

Sankranti	=	Vrikshik	=	782
Day	=	Friday	=	826
Tithi	=	Pratipada	=	736
Nakshtra	=	Mrugashirsha	=	681
Article	=	Cotton	=	753
City	=	Bombay	=	9
				<u>3787</u>

Divide 3787 by 9 the remainder is 7. This denotes there will be rise in prices of cotton on 10th December 1954 on the basis of rule given on page 100.

But this does not indicate rise in prices in Rupees and annas. We can find out rise in prices of cotton in Rupees and annas from Remainder by referring to Tables Nos. 6 and 7.

Now refer to date 10th in Table No. 6 against Remainder No. 7, you will get number $1\frac{1}{2}$, indicating rise of Annas $1\frac{1}{2}$ in prices.

Also refer to date 10th in Table No. 7 against Remainder number 7, you will get number 4, indicating rise of Rs. 4/- in prices.

But the Tithi Pratipada on 10th December 1954 lasts for 50 Ghatis. This means that we should follow Rule (b) given on page 105, i.e., add up the results arrived at by Tables Nos. 6 & 7. Hence we add up the results arrived at by both Tables Nos. 6 and 7 as above. The net result will be a rise in prices of cotton by Rs. 4/- + -/1/6 = Rs. 4/1/6 on 10th December 1954.

Example 2.—You have to find out whether prices of Tata Ordinary Shares will rise or fall on 6th December 1954 in Bombay market.

Solution.—From our Shree Mahalaxmi Panchang or some other Panchang, find out Sankranti, Day, Tithi, and Nakshtra on 6th December 1954 and then find out their Dhruwanks as below from Second System of Dhruwank Deepak.

Sankranti	=	Vrikshik	=	782
Day	=	Monday	=	850
Tithi	=	Ekadashi	=	278
Nakshtra	=	Revati	=	174
City	=	Bombay	=	9
Article	=	Tata Ordinary	=	457
				2550

Divide 2550 by 9, the remainder is 3. This denote there will be rise in prices of Tata Ordinary Shares on 6th December 54 on the basis of rules given on page 100. But this does not indicate rise in prices in Rupees and annas. We can find out rise in prices of Tata Ordinary Shares in Rupees and annas from Remainder number by referring to Tables Nos. 6 and 7.

Now refer to date 6th in Table No. 6 against Remainder number 3, you will get number 1, indicating rise of anna 1 in prices.

Also refer to date 6th in Table No. 7 against Remainder number 3, you will get number $4\frac{1}{2}$, indicating rise of Rs. 4/8/- in prices.

But the Tithi Ekadashi on 6th December 1954 lasts for 33 Ghatis. This means that we should follow rule (b) given on page 105, i.e., add up the results arrived at by Tables Nos. 6 and 7. Hence we add up the results arrived at by both Tables Nos. 6 and 7 as above. The net result will be a rise in prices of Tata Ordinary Shares by Rs. 4/8/- + -/1/- = Rs. 4/9/- on 6th December 1954.

Example 3.—You have to find out whether prices of Jute will rise or fall on 13th December 54 in Calcutta market.

Solution:—From our Shree Mahalaxmi Panchang or some other Panchang find out Sankranti, Day, Tithi and Nakshtra on 13th December 54 and then find out their Dhruwanks as below from Second System of Dhruwank Deepak.

Sankranti	=	Vrikshik	=	782
Day	=	Monday	=	850
Tithi	=	Chaturthi	=	574
Nakshtra	=	Pushya	=	525
City	=	Calcutta	=	7
Article	=	Jute	=	747
				3485

Divide 3485 by 9, the remainder is 2. This denotes that there will be fall in prices of Jute on 13th December 1954 on the basis of rule referred to in previous example. But this does not indicate fall in prices in Rupees and annas. We can find out fall in prices of Jute in Rupees and annas from Remainder number by referring to Tables Nos. 6 and 7.

Now refer to date 13th in Table No. 6 against Remainder number 2, you will get number 4, indicating fall of Annas 4 in prices.

Also refer to date 13th in Table No. 7 against Remainder No. 2, you will get number 3, indicating fall of Rs. 3/- in prices.

But the tithi Chaturthi on 13th December 1954 lasts for 32 Ghatis. This means that we should follow Rule (b) referred to in previous example, i.e., add up the results arrived at by Tables Nos. 6 and 7. Hence we add up the results arrived at by both Tables Nos. 6 and 7 as above. The net result will be a fall in prices of Jute by Rs. 3/- + -/4/- = Rs. 3/4/- on 13th December 1954.

Example 4—You have to find out whether prices of Cotton will rise or fall on 2nd and 3rd February 1955 in Bombay market.

Solution—From our Shree Mahalaxmi Panchang or some other Panchang find out Sankranti, Day, Tithi and Nakshtra on 2nd and 3rd February 55 and then find out their Dhruwanks as below from Second System of Dhruwank Deepak.

2nd February 1955		3rd February 1955	
Sankranti	= Makar = 527	Makar	= 527
Day	= Wednesday = 156	Thursday	= 772
Tithi	= Dashami = 377	Ekadashi	= 278
Nakshtra	= Rohini = 784	Mrugashirsha	= 681
City	= Bombay = 9	Bombay	= 9
Article	= Cotton = 753	Cotton	= 753
	2606		3020

Divide 2606 by 9 and 3020 by 9, the remainders in both the cases are 5. The remainders denote that there will be fall in prices of Cotton on 2nd and 3rd February 55 on the basis of rule referred to in previous examples.

But this does not indicate fall in prices in Rupees and annas. We can find out fall in prices of Cotton in Rupees and annas from Remainder number by referring to Tables Nos. 6 and 7.

Now refer to date 2nd in Table No. 6 against Remainder number 5, you will get number $3\frac{1}{2}$, indicating fall of annas $3\frac{1}{2}$ in prices on 2nd February 55. Again refer to date 3rd in Table No. 6, against Remainder number 5, you will get number 4, indicating fall of Annas 4 in prices on 3rd February 55.

Also refer to date 2nd in Table No. 7 against Remainder Number 5, you will get number $3\frac{1}{2}$, indicating fall of Rs. $3\frac{1}{2}$ in prices on 2nd February 55. Again refer to date 3rd in Table No. 7 against Remainder number 5, you will get number 4, indicating fall of Rs. 4 in prices on 3rd February 55.

But the tithi Dashami on 2nd February 55 lasts for 27 Ghatis, while the tithi Ekadashi on 3rd February 55 lasts for 21 Ghatis. This means that we should follow Rule (a) given on page 105, i.e., deduct the result arrived at by Table No. 6 from the result arrived at by Table No. 7. Hence we deduct the result arrived at by Table No. 6 from the result arrived at by Table No. 7 on both the dates. The net result will indicate that there will be fall in prices of Cotton by Rs. $3\frac{1}{2}$ - As. $3\frac{1}{2}$ = Rs. 3/4/6 on 2nd February 55, while there will

be fall in prices of Cotton by Rs. 4 - As. 4 = Rs. 3/12/-
on 3rd February 55.

CHAPTER IX

Application of Numbers to gain wealth all of a Sudden

The whole world is facing an economic crisis in these years. India is not an exception to it. Everybody is after obtaining more and more money for his earning is quite meagre and shy as compared to his ever-growing demands. His necessities are not fulfilled with his small income. Hence he aspires to get more and more money. How this problem of earning more and more money can be solved is a question which troubles us all. These days we see cross-words in practically all the magazines, weeklies and dailies. People run after races, buy Lottery tickets and do all sorts of things to get wealth all of a sudden.

Astrology is the Science which deals every problem of the man correctly and scientifically. This problem too is not escaped from its scope. In this respect I give you the following hints which will help you in your understanding.

(i) First of all take into account the position of the Moon at the time of your birth. Your zodiacal sign will be the same in which the Moon is travelling, (ii) Secondly find out your zodiacal sign from your spoken name.

For example a man's spoken name is Ram Kishore. He is born on 24-6-1923 at 6-30 A. M. Moon is in the first quarter of Swati Nakshtra. Therefore his name should have been Roop Lal. From his spoken name and from his name which ought to have been according to his birth zodiacal sign, we may find out his fate number as below.

Now refer to Table No. 1 in Chapter III and calculate numerical values of the names of Ramkishore and Roop Lal as below:—

	(i)		(ii)
	RAMKISHORE		ROOPLAL
1.	4 1 4 2 1 6 8 8 4 5	1.	4 8 8 8 3 1 3
2.	5 5 6 3 7 5 7 3 9	2.	3 7 7 2 4 4
3.	1 2 9 1 3 3 1 3	3.	1 5 9 6 8
4.	3 2 1 4 6 4 4	4.	6 5 6 5
5.	5 3 5 1 1 8	5.	2 2 2
6.	8 8 6 2 9	6.	4 4
7.	7 5 8 2	7.	8
8.	3 4 1		
9.	7 5		
10.	3		

Thus we get number 38. The man of this name will have 38th year in his life as the best of all. By adding the digits of this number (38) we get $(3+8=11=2)$. Hence 2nd month i.e., February will be the best month of this year in his life. Further 3rd, 12th, 21st and 8th 17th, 26th dates of this month will be the luckiest of all dates. On these dates of the month he will get wealth all of a sudden. From Sunday the 3rd Day i.e., Tuesday and the 8th day i.e., Sunday are the best of all.

But Ram Kishore is now running in 31st year of his life in year 1955. We have to see how 1955 will be. The Lucky number for Ram Kishore is $(3+8=11=2)$ 2.

1955 is equal to 2 which is equal to 2, his fate number. Hence 1955 will be equally profitable for him. But as compared to his year 38th which falls in 1961 (equivalent to 8), his 31 year falling in 1955 will be less profitable to him. This is because $1961=8$ which is four times that of number 2, his fate number.

Second month from the beginning of the year, 1955 i.e., February is the best month of the year and 3rd, 12th, 21st and 8th, 17th, 26th dates of this month are the most favourable dates. Tuesday and Sunday are the luckiest days. We should see on these dates whether Tuesday or Sunday falls on either of the dates. 8th February 1955 falls on Tuesday. Hence 8th is the most fortunate date for purchasing Lottery Ticket, Competing in Horse-Race or purchasing Cotton Future.

Now we have to find out the number we should purchase to fetch good amount. Serial Number 2 of Ram Kishore i.e., 556375739 or of Roop Lal i.e., 377244 will be the most favourable numbers in Lottery.

But we have told you that 38th year of his life is best year. We have to find out the fate number of the 38th year. From the digits written under Roop Lal, Serial number 3rd i.e., 15968 is the best of all for him and for Ram Kishore Serial number 8, i.e., 341 is best of all the numbers for Lottery Ticket.

For Cotton Future in 31st year $(5+5+6+3+7+5+7+3+9=50=5)$ 5 and $(3+7+7+2+4+4=27=9)$ 9 are the most useful. Opening number 59 and Closing number 95 are the best of all.

N: B.—For securing fate numbers of your name, please write to Pt. Ganga Prasad, Jyotishacharya, Proprietor : Shree Mahalaxmi Publications, Morar (M.B.).

E N D

Bharatiya Astronomical & Astrological Publications

(1) **Six Years' Astronomical Bharatiya Ephemeris 1955-60 A.D.** Price Rs. 8/8/- (English) + Postage As. 9.

The above Ephemeris has been prepared on the basis of Sayan System. Panchangs (Ephemeris) indicating daily planet's position for future six years were not available so far. Hence we have prepared this Ephemeris. We have prepared the Ephemeris on Sayan System because in India people have adopted different types of Ayananshas. To remove the difference of opinion in calculating Nirayan planets, we have followed Sayan system. You may find out present Nirayan planets after deducting Ayananshas of the system you adopt. We have incorporated in this book daily position of planets—Sun, Mars, Mercury, Jupiter, Venus, Saturn, Herschel, Neptune, Pluto, etc., according to Indian Standard Time 17/30, with zodiacal signs in degrees, minutes and seconds. Position of Moon for 12 hours has been given at 17-30 and 5-30. I. S. T. Our calculations will tally with the observations arrived at by Telescope. This book has been recognised by Bombay Astrological Society which has awarded its merit of certificate to author of this book in its annual convocation held on 19th March, 1955, under the president-ship of Shri Dr. Hare Krishna Mehtab, Governor of Bombay. This is the first Bharatiya Ephemeris of its kind which compares well with Raphael's Ephemeris. Besides daily position of planets, we have given

tables of aspects with method of finding aspect with illustrations. We have also described Total, Partial & Annular Solar and Lunar Eclipses, with their dates, Geocentric position of Sun and Moon, falling during the six years. We have also given Tables of Houses—Bombay, Poona, Calcutta, Indore, Madras and Bangalore. We have also given Declination table with illustration on the basis of Sayan planets. We have also incorporated in this book tables of Local Mean time of Sun-rise and Sun-set for Latitudes 0° to 60° North and 0° to 50° South. We have also given Logarithms tables for finding planet's places in hours and minutes. With the help of this table astrologers may easily prepare horoscope of children born in foreign countries. To find out exact birth time of children born in India we have inserted a "Table of correction for Local, Standard and Sidereal time" which also incorporates Latitudes and Longitudes of important cities of India. The book has been written in simple English so that the persons who know even the numerals 1 to 9 in English may easily understand the same. Raphael's Ephemeris costs Rs. 3/4/- per year where as this Ephemeris costs Rs. 8/8/- for six years. Astrologers and public interested in accurate astrology will acknowledge our labour if they just go in for one copy of our book. If we receive good encouragement we shall soon publish Ephemeris for next fifteen years.

(2) **64 Years' Bhartiya Ephemeris (Panchang)**
1890 to 1953 A. D. (Hindi) Price Rs. 7/- + postage as.12.

We have been receiving messages from various astrologers all over India that predictions given by them

on horoscopes usually do not tally hundred percent because Panchangs of various types are published in India and they differ with each other. Chandu Vishvayapi Panchang is most current of all the Panchangs. But planets, positions found out by this Panchang do not tally with positions arrived at either by Telescopic or by Grāhalaghaviya or Makrand system. In one Panchang Jupiter & Saturn occupy some zodiacal sign and degree, whereas in other Panchang Jupiter and Saturn occupy the different zodiacal sign & degree at the same time. Hence one Astrologer declares the horoscope wrong by reference to his panchang, while the other astrologer declares the same horoscope correct by reference to his panchang which is different from the panchang possessed by the former astrologer. Thus the native is confused and go to the extent of disbelieving in Astrological science itself. Hence the question is on what type of Panchang we may rely on?

Hence the various astrologers have asked us to prepare a panchang which may tally with panchangs prepared according to Sayan system, calculated as per Greenwich observatory. Thus we need a book which may work as a test-book, prepared on the basis of Nirayan system. So we should prepare a Ephemeris for 50 to 60 years, calculated on the basis of Nirayan system. This Ephemeris must tally with the Ephemeris prepared on Sayan system simply by adding Ayananshas. This book will rectify the mistakes, if any, in the old horoscopes. Hence we have prepared a Ephemeris for 64 years in Hindi. *Special features* of this book:-Calculations of birth-time, planetary position at birth-time, Twelve Houses, birth-time panchang, Local Mean Time of Birth

place, Char and Equation of Time, Standard Sun-rise time, Vinshottari Dasha, weekly position (Nirayan I. S. T.-17-30) of Sun, Mars, Mercury, Jupiter, Venus, Saturn, Herschel, Neptune, Pluto and Daily Moon Position.

Astrologers, all over the world, may predict future on the horoscope by placing planets at proper places with the help of this book. We have very well illustrated the method of preparation of horoscope in this book. We have thoroughly revised the book and have supplemented it by proper "Errata" wherever there is any slip of mistake. This book will prove an invaluable and an indispensable asset and guide for an astrologer. We hope astrologers will acknowledge my labour by ordering at least one copy of this book. We have very limited stock and hence you should send your orders at the earliest to avoid disappointment.

(3) Perpetual Market Forecast and Business Astrology.

(English) Price Rs. 10/8/- + postage As. 12.

This book has been prepared for commercial astrologers & businessmen in particular and public in general. Future transactions are held not only in India, but also in foreign countries. Usually businessmen carry on their trades according to their own calculations of teji and mandi. Till the publication of this book there was practically no book which may help businessmen in their trade. *The planets do influence, rather dominate over and govern the Commercial market.* The value of any commodity mostly depends on two factors: Supply and Demand. If a commodity is in plentitude, the value of that commodity

depreciates. But if there is scarcity of a commodity its prices appreciate, while if the demand is poor, the prices fall. But when the supply increases or falls? This depends on the good or bad harvest. But the question is when the harvest is good or bad? For this question we must refer to planetary laws. Planets act and react on one another in the atmosphere. On a Full Moon's day high tides are created in the sea owing to its intense attraction. Similarly planets affect fall and rise of value, crops, products and markets. The economic factors governing prices are only apparent causes. The primary cause is reflected by planets. If major planets are in good aspects, the prices would rise, while the prices would fall if major planets are in bad aspects. Thus the commercial markets are controlled by the celestial bodies with their positions and aspects in the heaven. Those businessmen, who will know the name of commodities ruled by each planet and zodiacal sign, will better control the market. Special features of this book are:—

(a) Names of the planets and their symbols, (b) Signs of the zodiac and their symbols, (c) Rulers or lords of zodiacal signs. Their Detriments, their Exaltation and their fall, (d) Motions of the planets, (e) Classification of zodiacal signs, (f) Ruling signs of different countries and Towns, (g) Commodities ruled by each zodiacal signs, (h) Planets, their Nature and commodities ruled by them, (i) Aspects—their definition, classification and observation on aspects, (j) Theory of Forecasting Rise and Fall in Market prices—Planets showing long periods of Teji and Mandi, short periods of Bullishness and Bearishness. Zo-

diacal signs showing Teji and Mandi. Ruling planets indicating Teji and Mandi. (k) Effects of Aspects of Fast planets on market prices, (l) Effects of Aspects of the slow and ponderous planets on market prices. (m) Eclipse and their effects on Market, (n) Practical application of 110 Astrological rules explained, (o) Outstanding Astrological yogas helping success in business. (p) Monthly Market Forecast of prices of Gold, Silver and cotton from 1955 A. D. to 1960 A. D.

This book is not confined to any particular year, but the same is useful forever.

In this book we have illustrated by examples how the astrological rules explained in this book are applied in practice and how far they are correct.

As explained on page 9 of this book Venus and Jupiter rule Jute. As per Shree Mahalaxmi Panchang Samvat 2012, Venus transits in Pisces and Jupiter transits in Gemini on 18th April, 1955. Thus Jupiter forms a Trine aspect with Venus. On Page 16th of this book we have described both Pisces and Gemini as signs of Mandi. On page 12 we have mentioned that Trine aspect denotes mandi. So long as Jupiter transits in Gemini, there will be fall in prices. Hence there will be one-sided fall in prices of Jute B. T. between 18th April and 3rd May 55. Jute B. T. prices fell from Rs. 124/- to Rs. 110/- by 3rd May 55. Thus there was a fall of Rs. 14/- in prices.

(4) Astronomical Tables of World Time Clock & Calculated World Standard Time

There are a large numbers of Panchangs published every year in India. But there is difference in Sun-rise,

Sun-set, Geocentric Noon-time and the length of day in every Panchang, because these Panchangs are not calculated afresh every year. There is variation of 15 Kalas in Sun's position every year—some year Sun's position increases, while in other year the same decreases. This variation is balanced in the leap year only. With the variation in Sun's position every year there should also be variation in Sun-rise, Sun-set and Geocentric Noon-time. Hence the astronomers must take into account this variation every year for calculating Sun-rise, Sun-set and Geocentric Noon-time upto seconds. This will enable them to prepare correct horoscope.

We have compiled this book to enable astronomers to calculate Sun-rise, Sun-set, Geocentric Noon-time and length of day upto seconds every year for any place in World with the help of Latitude and Longitude of that place. Ascendant of any place may also be found out with this book.

Special Features of this book are:—

- (1) Longitudes, Latitudes, Local time by correction to I. S. T., correction to Greenwich Sidereal Time and correction to Indian Sidereal Time.
- (2) Correction of Local time.
- (3) Equation of leap year's time—I. S. T. 5-30 A.M.
&
Correction of Common year's time „ „ „
- (4) Table of World's Mean Local Sun-rise time—Latitude North 0° to 63°.
- (5) Table of World's Mean Local Sun-rise time—Latitude South 0° to 50°.

- (6) Table of Sidereal time for 500 years from 1800 to 2300 A. D. with Day, Hour, Minute and Second-I. S. T.
- (7) Table of World Ascendants on Nirayana basis with zodiacal signs, degrees and kalas for latitudes from 0° to 61° North, along with 4th and Tenth House.
- (8) World Meridian Standard Time-latitude from Greenwich and year when they commenced.
- (9) 16 Examples of Indian and Foreign countries for calculating Sun-rise, Sun-set, Length of day, Geocentric Noon-time in Hours, Minutes and Seconds with the help of Mean Local Time and Latitude of particular place.
